PROJECT INFORMATION

PROJECT STATUS & SYSTEM NOTES

11/3/2016 - Meeting between SRWCB and the water system to discuss a revised scope of work for the planning project. More emphasis will be put on drilling 3 shallow test wells. **8/16/2016** - CRWA submitted a completed feasibility study FFAST application for treatment or a new well on 8/15/2016. **4/8/2016** - Funding application is nearly complete. **2/22/2010**-DE states that a revised COM is "NOT ADVISED, THEY HAVE NOT COMPLETED A FEASIBILITY STUDY NOR HAS IT STARTED YET (OF NO FAULT OF THEIR OWN - IS DUE TO FUNDING SNAFUs). METER PROJECT WILL COME FIRST BEFORE FEASIBILITY. 2018 MIGHT BE A GOOD DEADLINE FOR FEASIBILITY STUDY TO BE COMPLETED". **1/21/2016** - A funding application "kick off" meeting was held on 12-28-2016 to discuss necessary items that need to be covered to complete the application. John Wendele with CRWA will be assisting the water system with the application. Project

8/3/16: Water system is evaluating potential consolidation with another PWS. 6/24/2016: Construction will be able to completed by the end of the year. 4/29/16- LPA Received New Well Project SRF 14C107 Plans and Specifications for Review. Water System is soliciting contract bids for well construction. 1/29/16- LPA Received New Well Project SRF 14C107 Plans and Specifications for Review. Water System is soliciting contract bids.

4/29/2016: System was issued a new Compliance Order in April 2016. 3/7/2016: System will be issued new Compliance Order by the end of the month. 12/11/2015-The water system plans to complete pilot testing for POU alternatives by

11/17/2017: No changes reported. **9/6/2016**: Gold Beach Park tested a well on their property for arsenic that is currently used to supply water to a storage tank in case of a fire. This well was tested in February 2016 for arsenic and it was found to have an arsenic level of 2.6 ug/L. Gold Beach Park has not been responsive to compliance orders issued to it. A new compliance order has been drafted by the LPA and was reviewed by the DE on 9/6/2016. Unknown when the compliance order was issued to the water system. Issued a COM on 9/10/2015, but they may still need to issue a citation with fines. **6/27/2016**: Water system is not complying with compliance order that was issued 9/2015. Wendy spoke with LPA on 6/27/2016 to discuss the possiblity of re-isusing an amendmed com and/or issuing a citation with fines for their non-compliance. Not receiving any PN for the arsenic vioaltion and don't believe they are issuing Do Not Drink notices. Last sample was collected on 1/26/2016 - 18 ug/L. **1/13/2016** Water system has been notified to test arsenic levels in a second well on the property. If the water system does not conduct water testing for arsenic on its own, El Dorado County EMD will complete water testing for arsenic levels for the second well on the property to see if it can be used as the main water source for Gold Beach Park. **12/4/2015**-System is proposing blending from alternate sources to reduce arsenic levels below MCLs. EDC is waiting for water quality test results to determine if blending is a feasible option. Well#2 tested for arsenic levels on 2/10/2016. Arsenic levels in the possible alternate well were 2.6

RTC DATE		RTC BASIS	ETT	EPA Comments
			5	EPA is concerned that drawn out planning studies are interfering with the action plan to return the systems to compliance within three years
			14	Please clarify the proposed solution - is it a new well or consolidation or both? This system should be returning to compliance presently (Dec 2016). What is the likelihood of meeting the deadline and what are the escalation plans if the deadline is not met?
			10	What is the proposed solution to be achieved by July 2017?
			5	Has Gold Beach been reporting arsenic sampling and if not have they been receiving M&R violations? The anticipated RTC date was November 2016. Are there any plans to proceed with issuing penalties or amending the order?

Pending Funding Agreement Execution for Prop 84 construction grant

Water system planning on self-funding solution

Water system planning on self-funding solution

11/17/2016: Miller's Hill School is developing a plan to characterize nitrates in their newest well. **9/6/2016:** Per Stantec Engineering, the company performing work at Miller's Hill School, the construction project for Miller's Hill School began in September and was put on hold by the California Division of State Architecture from December 2015 to June 2016. Construction has re-started and is nearing completion. The project includes installing a shutoff valve Well #4 (the well with consistently high arsenic levels) to remove it from the potable water supply and converting it to an irrigation well. Potable water is currently provided by Rimrock Water Company of Placerville, CA. I am meeting with the school Superintendent and Stantec construction to discuss the current status of their water supply. **8/2016:** Wendy and DE has been advising the LPA to have the school inactivate Well #4 and use it for irrigation only. The LPA is still evaluating whether the school will seeking blending or inactivate Well #4. 6/14/2016: Latest tests show 6.7 arsenic level for well #4. RAA is not below MCL yet. **2/5/2016-**Well #4 is the well that has arsenic values consistently above the arsenic MCL. However, Miller's Hill School has been providing bottled drinking water to students and staff since 2014. The latest CCR report states "All staff and students are drinking only bottled water provided by the school" and "Miller's Hill School has received Prop. 84 funding to replace the drinking water well and associated infrastructure". I called Miller's Hill School today and they are preparing a statement for me that details when the school switched to bottled drinking water. Miller's Hill School is still providing bottled drinking water for students and staff as of 4/15/2016. **12/9/2015-**Per Gary Chan, the construction began in September. Recently, the Division of State Architecture (DSA) contacted the School District and requested to stop the work. It appeared the School District didn't get the approval from DSA when construction began, and DSA is requesting the Plans and other documents to conduct appropriate review. The School District's engineering consultant is preparing the documents for DSA review and

11/7/16 update: Well driller approved to continue development of two completed wells to improve quality and to retest. **8/16/16 update:** Both wells constructed, but there are construction defects that are being addressed by the consultant with the well driller. One well has ND arsenic, the other 28 ug/L, based on a single sample during well development. Wells were out of vertical alignment and produce significant turbidity. If redevelopment does not result in reduced turbidity, wells may have to be rejected. **OLD UPDATES: 3/4/2016:** This system is under court ordered receivership and the court is monitoring progress toward compliance. Additionally, there are two construction projects underway to correct the arsenic MCL violation and provide a new distribution system. As such, issuance of another CO with compliance deadline is not deemed necessary by the DWFOB District Office. **9/24/15** P84 FA executed for well construction. **1/12/16 update:** DFA approved award of well construction bid. **5/4/16 update:** one well constructed,

11/7/16 update: DDW developing response for re-evaluation of PWS classification; **8/16/16 update:** Citation with rescindable fines issued 5/16/16. CAP submitted by WS on 6/24/16. Fines rescinded on 6/27/16. WS is requesting re-evaluation of their PWS classification as a CWS (mostly seasonal usage second homes). **OLD UPDATES:** Water system evaluating alternatives. NOT using state funding. **9/17/15 update:** System consultant contacted DDW on 8/28/15 inquiring about POU piloting for compliance. Provided POU Guidance; **11/4/15** Sent letter advising WS of past due deadlines related to CAP submittal. **5/4/16 update:** draft Citation with rescindable fines prepared for failure to comply

11/7/16 update: No change in status. **8/16/16 update:** WS continuing proposed arsenic sampling study. **6/14/2016:** Data is being obtained for 4th Q 2015. During 1st Q 2016, the operator found Wells 2&3 electrical controls had been damaged, and hence wells were inoperable. Samples could not be collected, and no M/R violation will be issued since the wells were inoperable. We have been advised that samples have been collected for the 2nd Q 2016, and results are pending. 1stQ2016 reslt for Well 1 was ND, potentially due to the pumping status of the well. Specifically, the operator is studying the possibility that the arsenic concentration reduces with pumping.

Schedule:

May - July 2016: Arsenic Sampling Study (testing arsenic during pumping cycle to evaluate changes in concentration)

August: Treatment design pending results of study will entail either a blending tank & controls or AdEdge Filtration Treatment.

December 2016: Compliance via installation of equipment (treatment or blending tanks)

OLD UPDATES: Water system evaluating alternatives. NOT using state funding. **9/17/15 update:** System procuring experienced engineering services to propose alternatives for centralized vs. POU treatment. **12/15/15** CAP presented

		#N/A	Please clarify in the latest update the progress that has been made in taking the high arsenic well offline and the plan for drilling a new well. Why is the contractor installing a shutoff valve on the high arsenic well instead of completely disconnecting it from the drinking water system? What is the most recent RAA?
		0	What is the anticipated RTC date?
		#N/A	What is the basis for the evaluation for a reclassification?
		0	Is the system installing treatment or blending tanks, and what is the status of the installation?

For-profit private business - Ineligible

Privately owned - System not eligible.

Privately owned - System not eligible.

P84 planning study completed. P84 construction project underway.

11/7/16 update: the Zonneveld system was permitted as two independent CWSs via the July 2016 permit (DDW identified the two wells were not physically connected & there were two independent distribution systems). The Zonneveld-Cerini Water System (CA1000627) is now RTC effective with receipt of the 7/14/16 POU data showing ND. The Zonneveld-Cedar Water System (1000369) needs one additional round of sampling (4th Q) to demonstrate 2 consecutive QRAA of compliance. **8/16/16 update:** Results are ND for each POU device. RTC estimated by end of 3rd Q 2016. Domestic water supply permit issued for POU July 2016; **6/14/2016:** Results are ND for each POU device so far. **OLD UPDATES:** 3 units have been installed and are in process of 1-year pilot study. **5/11/15 update:** 1-year pilot study completed. DO awaiting pilot study report. **7/29/15 update:** Draft pilot study report received 7/17/15 and DO comments pending. All POU devices will be installed upon DDW approval of the pilot study report, the water system will conduct required public hearing, then proceed with installation if approved by customers. Full installation anticipated to be completed by 12/31/15. RTC would be projected to occur by end of 3rd Quarter 2016. 4QRAA of

11/7/16 update: System will be submitting request for POU piloting soon; **8/16/16 update:** No change in status **6/14/2016:** The system is evaluating the installatin of ArsenX as POE treatment . They plan to have the POE installed and operational by the 12/31/16 deadline. **7/31/15 update:** 4QRAA = 14 ug/L. Agree that revised CO is appropriate. Draft revised CO prepared 7/31/15. **9/17/15 update:** Revised CO issued 8/5/15 with compliance deadline of 12/31/16;

11/7/16 update: RTC based on 4th QRAA results **8/16/16** Will confirm ability to RTC based on sampling following installation of POE; **6/14/2016:** POE device testing shows ND in samples collected on 1/28/16, 2/3/16, 2/11/16 & 2/18/16. **8/4/2015:** The water system's consultant will have the POE test plan to the State in three weeks, and on the State's approval can complete installation in three weeks. The State will require a one month 'pilot' demonstration of the POE units. Estimated completion of the piloting is November 1, 2015. **7/29/15:** 4QRAA = 13 ug/L. System has been developing information on appropriate treatment and pilot study. Do not agree that revised CO is appropriate at this time. **9/17/15** Corrective Action Plan submitted for review dated 9/4/15. Proposed POE at 2 locations where domestic use of water occurs. DDW approval of plan sent to system on 9/17/15;; 11/13/15 Q progress report

11/7/16 update: No change in status. DDW evaluating compliance status with CO and will take appropriate followup action. **8/16/16 update** (NEW CO issued 3/24/16) CO issued based on single samples collected in 2013, 2014 and 2015, all results exceeding the arsenic MCL. WS has had signifcnat failure to monitor quarterly. CAP approval dated 7/19/16 requires Q monitoiring.

11/7/16 No change in status. **8/16/16 update:** Funding agreement issued to FCSA 30/32 on 8/9/16 for planning to evaluate groundwater for FCSA 32/Cantua Creek. CCV still proposes to consolidate with FCSA 32 as part of the construction project. **6/14/2016:** Proposed solution is now evaluating groundwater for the Cantua Creek community. New funding agreement to change the scope of the planning study is under development, and should be issued in the next month or two. That project would have an 18 month timeline, and would include a test well and design of two completed wells and distribution system. DWR may be funding distribution system replacement separate from the DWSRF project. **OLD UPDATES:** We believe this system will participate in a consolidation project currently in an SRF planning study by FCSA #30 & 32 (1000019 & 1000359) **9/17/15** met with Fresno Co special districts regarding the FCSA 30/32 project on 9/11/15. Project includes consolidation of CCV with FCSA 30/32 system, and creation of a new

11/7/16 update: No change in status - project continuing per schedule **8/16/16 update:** Funding agreement amended 4/25/2016 to extend deadline for project completion to 3/21/18. Arsenic treatment soon to go to bid; **6/14/2016:** the RTC date of 3/21/2018 is not in the 2009 compliance order. **5/11/15 update:** Pilot study completed and arsenic treatment vendor selected.. Design of treatment underway. **7/29/15 update:** Well 6 approved to operate with initial arsenic at 9 ug/L. Blending with existing high arsenic wells. As pilot completed & DDW approved selection of treatment by letter dated 4/22/15. Design underway. Project FA provided deadline of 3/22/16 for completion, however CCSD will be requesting extension. It is estimated that project will be completed and treatment online by September 2016. **9/17/15** Update: No Change; **11/16/15** phase 1 of construction project completed. **3/4/16 update:** FA extension request submitted by Caruthers CSD on 12/11/15 to provide 2 additional years to complete construction

		0

2Q/2016 - 65

3Q/2016 - 17

3Q/2016 - 15

7/22/16- Keeler now has a D1 certified operator and is looking for a T1 operator to hire. They are maintaining their POU units and sending the LPA monthly reports. They now have 40 POU devices installed out of 43 active service connections. POU results are still ND. 4/22/16-New Board Members are addressing compliance order timeline. 2/5/2016-Approximately 40-50 POUs installed out of 80 service connections (service connection capacity max. not all lots are occupied). 3-5 samples are collected per month, so every unit is sample 1/yr.; results are ND and no spikes have been detected due the county requiring the filters to be changed out annually; problem is that the board quit in December 2015 and so currently there is not certified operator. Funding agreement needs a signature to be executed and the Board; quarterly source sampling is still to be conducted; PN is being done quarterly. 11/20/2015-The 300k funding agreement was for centralized treatment alternatives with costs research, and drilling a test well to see if they can get a well with less arsenic. The KCSD Board failed to sign the agreement. Sean's office might have more info on where they are in the process and if they are still eligible for this funding package – probably not, because it's been several years now. Every POU device is tested annually and results have been ND. Although they use the Isolux POU devices and media which have not been NSF 53 approved. The majority but not all homes have devices. Previous centralized treatment funding project for this system was rejected because the system could not afford to pay the high O&M costs for centralized treatment. Maybe they need another funding project that would install approved POU devices at the homes that would allow it and then POE on the service connections that won't allow a POU. That way they have 100% compliance and approved devices. But don't know if we should wait for the new POU/POE

9/6/2016: A revised CAP was submitted (7/19/16). The Water System is planning to conduct cycle tests on the well and determine depths of arsenic and the potential installation of a packer to isolate arsenic zones. The Water System also plans to evaluate POU as another potential option 6/16- system given until 7/15/2016 to provide new CAP since they will be not connecting with Vaughn for now. **10/15**-Looking into possible blending with Brock MWC which exceeds nitrate and is adjacent to Maher. Both systems are under CO to fix problems - both just pulling out of the Vaughn

11/09/16 (JSD): Due to RCSD's concerns about the O & M cost of the consolidation pipeline and issues related to getting easement for the pipeline, consolidation of Lands of Promise is no longer part of the RCSD regional consolidation project. LOP is going to complete a separate planning application via FFAST which will include evaluation of other alternatives in addition to consolidation with RCSD. 08/03/16 (JSD): During phase 1 of the RCSD's regional consolidation project (expected to start in 2017), other alternatives (new well, treatment, etc.) including consolidation will be evaluated to select an alternative for construction. RCSD has expressed concerns over the O & M cost of the long consolidation pipeline to Lands of Promise. 6/10/2016 (NJG) - SWB OCC will be consulting with Kern County's legal counsel about funding agreement terms and conditions. They continue to have liability concerns and it is unclear how long the negotiations will take. County is a third party to the project and is only acting as a mechanism to route grant funds. County does not own or operate the water system. RTC date is unclear. 04/28/16 (JSD): The State Board soon plans to issue a funding agreement to Kern County to administer the P84 funding project. 04/28/16 (JSD): Review of draft plans and specs on hold since they are incomplete. Draft PDR3A was approved by letter dated December 1, 2015. Test Well Completion report was approved by letter dated April 13, 2016. Amendment to Funding Agreement to extend the planning project completion date to December 31, 2016, issued to Rosamond CSD on April 25, 2016; waiting for RCSD to return the signed amendment to the State Board. 01/16 (JSD): Draft plans and specs for the consolidation project received on Dec. 31, 2015; the District office plans to complete review of the plans by early February 2016. Project time extension to July 2016 is under consideration by DFA.

		0	What is the plan in the case of development of the inactive lots/service connections?
		5	When will cycle tests be concluded and when will final corrective action plan be established?
		0	Would DDW consider potential mandatory consolidation as a solution?

3Q/2016 - 10

3Q/2016 - 88

3Q/2016 - 44

11/09/16 (JSD): draft plans and specs have been received and are under review by the District Office. Deadline for completion of the planning project is 12/31/16. A conf. call was held on 11/08/16 to go over the pending items to complete the planning project.

08/03/16 (JSD): Per email communication in July 2016 with GEI consultants, draft plans and specs are under preparation and will be soon submitted to DDW for review. Project completion deadline is 12/31/16 for the P84 planning project.

04/28/16 (JSD): Review of draft plans and specs on hold since they are incomplete. Draft PDR3A was approved by letter dated December 1, 2015. Test Well Completion report was approved by letter dated April 13, 2016. Amendment to Funding Agreement to extend the planning project completion date to December 31, 2016, issued to Rosamond CSD on April 25, 2016; waiting for RCSD to return the signed amendment to the State Board.

01/19/16 (JSD): Draft plans and specs for the consolidation project received on Dec. 31, 2015; the District office plans to complete review of the plans by early February 2016. Project time extension to July 2016 is under consideration by DFA.

10/05/15 (JSD): Rosamond CSD has completed drilling of a test well to address its hexavalent chromium problem; water quality

11/09/16(JSD): Drilling of Test Well Nos. 2 and 3 was completed in October 2016. Initial water quality results indicate that Test Well #3 would be a viable source of supply with satisfactory water quality. A pump test will be soon conducted to determine yield of the well.

08/03/16 (JSD): BLM has recently given approval to drill the test wells; the wells are expected to be drilled by the end of thi year and target is to complete the P84 planning project by April 16, 2017.

04/28/16 (JSD): NV5 and Hungry Gulch are working with BLM to acquire easement to drill test wells; application has been submitted to BLM. Funding agreement has been amended to extend the completion deadline to April 16, 2017.

01/19/16 (JSD): Due to excessive cost of purchasing the land from the private property owner and not having the option of buying the easement, DFA and DDW stopped NV5 to pursue this option. DDW is in contact with BLM to check if BLM would allow to drill on its land; BLM is developing a guidance document for allowing drilling wells on its land and the document is in the process of being finalized and is expected to be available by the end of February 2016. Current P84 funding agreement expired on 12/31/2015; DFA will consider extending the funding agreement if there is a solid option to pursue.

10/05/15 (JSD): NV5 Engineer is Negotiating with the property owner to answer his questions and develop an easement agreement for the proposed test well. If an agreement with the property owner is not developed soon and a test well can not be drilled, the P84 feasibility project may need to be ended since the current project completion date can not be extended beyond December 31, 2015. The water system may then need to submit a new DWSRF funding application using FFAST.

5/29/15 (JSD): Funding

11/09/16 (JSD): Sunset Apartments is part of the NEWD P84 construction funding project. Discussions between DFA and NEWD are in progress to discuss completing the project. A new funding agreement will be issued by DFA to NEWD depending upon the outcome of the discussions.

08/03/16 (JSD): In July 2016, SWRCB-DFA issued a letter to NEWD about termination of the P84 funding agreement that expired in May 2016. Waiting for response from NEWD to complete the arsenic improvement project. NEWD's attorney has contacted the SWRCB to inquire funding for connecting Sunset Apartments to NEWD without first completing the arsenic project.

04/28/16 (JSD): In a recent email communication April 2016, Attorney General's Office has approached NEWD to restart the construction project and complete the construction.

01/19/16 (JSD): Construction project is on hold due to litigation between NEWD and contractor, Clarke Bros., Inc.

10/05/15 (JSD): Due to litigation between NEWD and contractor, the construction project is on hold.

5/29/15 (JSD): Per 5/8/15 email communication with Dollie Kostopoulos, NEWD has filed a cross complaint against the contractor to use the money from the Bonding Company to restart the construction.

Part of North Edwards Water District's P84 construction funding project; 40% completed.

1/30/15 (JSD): Since

6	With RAA at MCL, will DDW issue a revised order upon award of construction funding?
0	
10	With the delays, does DDW still anticipate Aug 2018 RTC?

3Q/2016 - 24

3Q/2016 - 11

11/09/16 (JSD): P84 construction funding project has been completed. Project completion documents are under preparation by DFA. Two new wells are successfully running. The water system is expected to be in compliance with the arsenic MCL after the 4th quarter of 2016.

08/03/16 (JSD): Construction project is over 90% complete. Interim approval to use the newly drilled Wells 03 and 04 was given on June 7, 2016. Expected to achieve full compliance with the arsenic MCL in the 4th quarter of 2016.

04/28/16 (JSD): Construction project is about 75% complete.

01/19/16 (JSD): Construction of the project is in progress; about 25% completed.

10/05/15 (JSD): First bidding of the project was not successful. The project was rebid on 9/29/15; waiting for a decision on the second bidding.

5/29/15 (JSD): P84 construction funding agreement executed on

11/09/16 (JSD): Due to RCSD's concerns about the O & M cost of the long consolidation pipeline and issues related to getting easement for the pipeline, consolidation of William Fisher Memorial Water Company is no longer part of the RCSD regional consolidation project. RCSD is the court appointed receiver of William Fisher and will evaluate other alternatives (including POU treatment devices) under a separate funding project.

08/03/16 (JSD): During phase 1 of the RCSD's regional consolidation construction funding project (expected to start in 2017), other alternatives (new well, POU treatment, etc.) including consolidation will be evaluated to select an alternative for construction. RCSD has expressed concerns over the O & M cost of the long consolidation pipeline to William Fisher.

04/28/16 (JSD): Review of draft plans and specs on hold since they are incomplete. Draft PDR3A was approved by letter dated December 1, 2015. Test Well Completion report was approved by letter dated April 13, 2016. Amendment to Funding Agreement to extend the planning project completion date to December 31, 2016, issued to Rosamond CSD on April 25, 2016; waiting for RCSD to return the signed amendment to the State Board.

01/19/16 (JSD): Draft plans and specs for the consolidation project received on Dec. 31, 2015; the District office plans to complete review of the plans by early February 2016. Project time extension to July 2016 is under consideration by DFA.

10/05/15 (JSD): Rosamond CSD has completed drilling of a test well to address its hexavalent chromium problem; water quality results

11/09/16 (JSD): According to DFA, Kern County has concerns about signing a funding agreement on behalf of RS MWC since RS MWC does not have proper legal formation documents. A conf. call was held on October 25, 2016 among DFA, DDW and RS MWC to discuss RS MWC becoming a legal entity. RS MWC has requested technical assistance to complete this item. DFA is looking into the funding mechanism to do this.

08/03/16 (JSD): Issuance of funding agreement is pending with the State Board; trying to address comments from the Kern County Counsel.

04/28/16 (JSD): The State Board soon plans to issue a funding agreement to Kern County to administer the P84 funding project.

01/19/16 (JSD): Due to various concerns of Kern County (mainly liability for cost increase), the issuance of funding agreement has been delayed. Plan to soon issue the revised funding agreement to Kern County and then discussions with RS MWC will start about taking responsibility to address the cost increases, if any.

10/05/15 (JSD): Final revisions to the funding agreement language are under review by legal; expected to issue the FA before end of Oct. 2015.

5/29/15 (JSD): P84 construction funding agreement issued in March 2015; revisions are being made to the language in

0	Is system blending new wells with old or solely using new wells? If they are using only the new wells, system should be automatically RTC'd.
0	Would DDW consider potential mandatory consolidation as a solution?

P84 Planning project

10/15- Was part of the Vaughn Regional Consolidation Funding project

Working with system - no CAP, but setting up a office hearing with the system

6/16 - Mandatory consolidation letter sent out 6/16. Solution will be consolidation with City of Bakersfield. Currently in planning study with 11/16 planning agreement deadline. Deliverables: plans and specs, enviro, consolidation agreement with City of Bakersfield. 10/15-test well does not meet arsenic or radiological MCLs - therefore, a new well will not be a viable solution. Meeting in late 9/15-DDW will be issuing a Pre-Consolidation letter for a consolidation with City of Bakersfield. If necessary, DDW will mandate consolidation with City of Bakersfield which was the original solution for the project. After new personnel at the City - the consolidation was cancelled due to a fear of losing Charter City status. Plans and specs for this alternative were already prepared (90%) for this alternative. Pre-Consolidation letter to go out in 10/15.

No

6/16- completed piloting, Waiting for report on findings due 6/30/16. POU's will be self funded. 10/15-Piloting 2 POU devices in homes - planning to install POU devices on all 16 homes to meet Arsenic MCL.

11/09/16 (JSD): draft plans and specs have been received and are under review by the District Office. Deadline for completion of the planning project is 12/31/16. A conf. call was held on 11/08/16 to go over the pending items to complete the planning project. 08/03/16 (JSD): Per email communication in July 2016 with GEI consultants, draft plans and specs are under preparation and will be soon submitted to DDW for review. Project completion deadline is 12/31/16 for the P84 planning project. 04/28/16 (JSD): Review of draft plans and specs on hold since they are incomplete. Draft PDR3A was approved by letter dated December 1, 2015. Test Well Completion report was approved by letter dated April 13, 2016. Amendment to Funding Agreement to extend the planning project completion date to December 31, 2016, issued to Rosamond CSD on April 25, 2016; waiting for RCSD to return the signed amendment to the State Board. 01/19/16 (JSD): Draft plans and specs for the consolidation project received on Dec. 31, 2015; the District office plans to complete review of the plans by early February 2016. Project time extension to July 2016 is under consideration by DFA. 10/05/15 (JSD): Rosamond CSD has completed drilling of a test well to address its hexavalent chromium problem; water quality results of the test well are awaited. Draft PDR of the design of

9/6/2016: The office hearing was conducted in Bakersfield on 10/1/15 and the system submitted a CAP which we received a revised and updated CAP on 10/8/15. The system was informally approved for CAA funds for the POU project. The system is still waiting on the formal agreement from DFA, but given approval to begin incurring expenses. The POU pilot devices (3 different types) were installed this last Monday on 8/29/16. **6/16 - XX.** 10/15-Had CAP meeting 9/15, system submitted CAP. System planning on piloting POU for installation at all 16 SC

11/09/16 (JSD): After bidding, first phase (consolidation pipeline work) of the construction contract has been awarded. A pre-con meeting between QVWD and contractor was held on October 26, 2016. Construction work is expected to start shortly. 08/03/16 (JSD): The project is being bid in phases. The first phase of bidding is the consolidation pipeline between QVWD-Eastside and QVWD-Westside and the bid opening date is August 11, 2016. Bidding for the new well, storage tanks and treatment plant will be done later. 04/28/16 (JSD): Some final revisions to plans and specs being made to get the project ready for bidding in May 2016. 01/19/16 (JSD); Construction funding agreement has been issued with a completion deadline of 12/08/2018. Project kick off meeting was held in January 2016. Next step is bidding. 10/05/15 (JSD): It is expected that construction funding agreement will be issued before 10/31/2015. 5/29/15 (JSD): Technical clearance of the District sent to DFA on 05/06/15; waiting for issuance of P84 construction funding agreement. P84 planning project completed in June

Prop. 84 const. phase 1 FA issued
P84 constr - est. completion 10/2015

11/09/16 (JSD): draft plans and specs have been received and are under review by the District Office. Deadline for completion of the planning project is 12/31/16. A conf. call was held on 11/08/16 to go over the pending items to complete the planning project. 08/03/16 (JSD): Per email communication in July 2016 with GEI consultants, draft plans and specs are under preparation and will be soon submitted to DDW for review. Project completion deadline is 12/31/16 for the P84 planning project. 04/28/16 (JSD): Review of draft plans and specs on hold since they are incomplete. Draft PDR3A was approved by letter dated December 1, 2015. Test Well Completion report was approved by letter dated April 13, 2016. Amendment to Funding Agreement to extend the planning project completion date to December 31, 2016, issued to Rosamond CSD on April 25, 2016; waiting for RCSD to return the signed amendment to the State Board. 01/19/16 (JSD): Draft plans and specs for the consolidation project received on Dec. 31, 2015; the District office plans to complete review of the plans by early February 2016. Project time extension to July 2016 is under consideration by DFA. 10/05/15 (JSD): Rosamond CSD has completed drilling of a test well to address its hexavalent chromium problem; water quality results of the test well are awaited. Draft PDR of the design of

11/09/2016 (JSD): Self funded POU treatment being installed, following completion of a POU treatment pilot study. Expected compliance date is end of 2016.

6/16-drilled 2 production wells, equipping and construction of transmission pipe. New EPA AO issued. Wells to be online later this summer. Need to find funding for 3 additional wells in Phase 2. 10/15-drilling 2 production wells, equipping and construction of transmission pipe. New EPA AO issued.

11/09/16 (JSD): Drilling of the test well is in progress and is expected to be completed before end of 2016. 08/03/16 (JSD): Updated draft of the plans and specs for the test well received on 7/28/16; expected to bid the test well in Sep. 2016.

04/28/16 (JSD): Boron CSD is in the process of signing agreement with the property owner to drill a test well and also working on the plans and specs for the test well. 01/19/16 (JSD): plans and specs for the test well are under preparation. Also searching for a location for drilling a test well; discussions with property owners underway. 10/05/15 (JSD): Waiting for test well to be drilled. 5/29/15 (JSD): PER approved in February 2015; waiting for test well plans and specs. Funding agreement will need to be extended to a new project

3/7/2016: Lamont needs a one to two quarters of data before they can return to compliance. Approval for new well on 12/16/15 (Well 19). Well 12 was valved off the system and a new dedicated pipeline was constructed to Well 19 so that Well 12 and 19 will be blended. Blended plan was approved by District office on 2/8/16 and the system has not started using water from Well 12 that will be blended with Well 19 water. The system has not supplied high arsenic water to the system since December 2015. 10/15-Well will not come online until 11/15. Once online - system would be

11/09/16 (JSD): Review of updated environmental documents is in progress by BLM. The funding agreement was amended to extend the project completion deadline to December 31, 2016. The project is expected to be completed by Dec. 31, 2016. 08/03/16 (JSD): ERU of SWRCB and Rand CWD are working with BLM to address their comments on the environmental documents; the completion deadline is Sep. 30, 2016. 04/28/16 (JSD): The funding agreement is amended again to extend the project completion deadline to September 30, 2016, to allow additional time for environmental documents and comply with the BLM requirements.

01/19/16 (JSD): The funding agreement is being amended to extend the project completion deadline to June 30, 2016, to allow additional time for CEQA and NEPA. 100% plans and specs have been received; expected to review by mid February 2016. 10/05/15 (JSD): Development of the new well, pump test, and WQ testing conducted in Sep. 2015; waiting for the results. Draft PDR and plans and specs have been received and waiting for review by DDW. Planning

SRF Construction 6/13/2016 (JG): Currently in planning with 8 months remaining, 90% P&S submitted 6/1/16 for new wells and treatment facilities. Greenfield should have Env and P&S completed by Sep 2016 and will apply for construction funding

SRF project planning. Const app. Submitted 6-10-16: FA Executed 4/21/2016

SRF/P84 Construction app. Applied

6/16-SRF FA for planning still going on ends 4/17 with 90% plans and specs submitted and under review. Previous update was incorrect as they were still in planning.

11/09/16 (JSD): Discussions between DFA and NEWD are in progress to discuss completing the project. A new funding agreement will be issued by DFA to NEWD depending upon the outcome of the discussions. 08/03/2016 (JSD): In July 2016, SWRCB-DFA issued a letter to NEWD about termination of the P84 funding agreement that expired in May 2016. Waiting for response from NEWD to complete the arsenic improvement project. 04/28/16 (JSD): In a recent email communication April 2016, Attorney General's Office has approached NEWD to restart the construction project and complete the construction. 01/19/16 (JSD): Construction project is on hold due to litigation between NEWD and contractor, Clarke Bros., Inc. 10/05/15 (JSD): Due to litigation between NEWD and contractor, the construction project is on hold. 5/29/15 (JSD): Per 5/8/15 email communication with Dollie Kostopoulos, NEWD has filed a cross complaint against the contractor to use the money from the Bonding Company to restart the construction. Part of North Edwards Water District's P84 construction funding project; 40% completed.

10/31/16 Currently looking to see if consolidation with the Santa Rosa Rancheria is a potential long term solution for the school. A site assessment will be conducted by RCAC on 11/4/16 to further research this option and determine the extent of work required to consolidate. The SWRCB will also contact EPA to ensure the Rancheria has a regulated PWS that meets drinking water standards. **9/1/2016:** Central Union School is now in the queue to be assigned to a TA rep from CRWA and begin the planning stages for a permanent solution to their arsenic exceedance at the school. The LPA has been communicating with Elvira Reyes at SWRCB-DFA and indicating to her that the school will also need bottled water. They don't currently provide bottle water. The LPA will be attending the kick-off meeting at the school when scheduled. **7/29/2016:** AR request was submitted as indicated in previous update. Response by the state is currently pending. **4/12/16:** LPA conducted sanitary survey at the school. Delivered compliance order with RTC date of 7/2019. LPA will submit AR request to initiate funding application for bottled water and planning grant to assist the school achieve compliance by the proposed RTC date. **3/10/2016:** LPA is scheduled for a sanitary survey on 3/24/2016, by which they will deliver the revised compliance order with a RTC date of 3/2019. **12/1/2015-**Will conduct joint

10/31/16 - No status change from previous update. **7/29/2016** - LPA will mail correspondence to request update of POU research and installation. **12/1/2015-**Issued revised compliance order under the advice of SRWCB. Operator will

10/31/16 No status change from previous update. **7/29/2016** - Installation of POU-RO units is not yet complete. 4/22/16: No status change from previous update. **12/1/2015-**A revised compliance order was issued in September 2015. The operator has submitted a proposal for installation of POU-RO units at two centralized locations.

10/31/16 No status change from previous update. **7/29/2016:** No status change from previous update. **4/22/16:** No status change from previous update. This system is under a two year timeline to relocate to a new site. They were bought out as a result of the speed rail project. Once at their new location, they plan to drill a new well. A revised CO 6/16-well drilled. Construction FA issued 3/16. 4/16-construction underway.

2/8/2016-the RTC date will be discussed at the 2/9/2016 EPA Region 9 Meeting. 10/15 - District will not re-issue Kettleman City a revised CO with deadlines at this time. They are installing a new SWTP that will treat water from the aqueduct – estimated construction 18-24 months. received grant funds from USDA for \$2 million additional money for construction. Environmental issues developed and identified by DFA ERU which will hold up the FA approx. 6 months.

		1	
		0	How does the delay affect the anticipated RTC date?
		0	Are there any updates on the school potentially providing bottled water?
		0	Is system responsive to LPA?
		0	Is progress being made toward installation of POUs? What is the barrier to installation of POUs?

WS submitted an application to review all options but they did not qualify for grant. The system is in the process of gaining 501C non-profit status.

Prop 84 feasibility study project application being processed for funding agreement issuance. Full SRF application submitted. District Office clearance 6/30/2014. The non-profit application has been submitted but needs to be updated by the State Water Resources Control Board

SRF full application submitted for consolidation with LACWWD. They are in Planning Study Stage. Awarded Prop 84 feasibility study grant on 1/16/2015. Project in progress, expected to complete by 11/1/2015

10/6/2016- Spoke with Alisa Morrison. The water system has applied for funding. Tony Morrison (water system operator) attended the Arsenic workshop on July 6, 2016. They have looked into treatment options (with Isolux Company) but determined it was too expensive (45-50K). Alisa Morrison stated that POE treatment will be too costly because of the additional testing that will be required. Lancaster Park MHP is continually looking into more affordable treatment options but so far have not found any. They are currently providing 5 gallon jugs of bottled water to their residents.

10/6/2016- Spoke with Fernando Rosas (manager). Fernando stated that Tony has been in contact with Cindy Cook regarding funding and treatment options. Fernando stated they are waiting for a list of approved treatment options. Once they obtain this list they will review it implement treatment.

6/30/2016: The water system operator has been consulting with Isolux Company for water treatment options for arsenic removal. They are also working with Cindy Cook with CRWA to apply for funding. They are attending Arsenic workshop on July 6, 2016 at Palmdale Water District to check for more treatment options. On April 7, 2016, LPA had conference call with Lawrence Sanchez from State Water Resources Control Board. As per the discussion, the water system operator has been told to contact Cindy Cook to get assistance for treatment options for Arsenic. No funding project at this time. The operator was provided the application and the contact information for Lawrence Sanchez, Associate Sanitary Engineer, to initiate the process. **2015:** New ownership as of 03/2015. The operator working with Cindy Cook, SRF Program Coordinator, for completing TMF. AR has been extended to 12/31/2015 at the request of

10/7/16- Received an email from Sandra Miloszar (President) who stated that they are in the same position. Mettler Valley Mutual submitted information to a contractor to design a filtration system and are waiting at this point. Sandra stated that she will email the name of the contractor once she is back in town. **10/8/16-** Contractor information: Douglas Craver, Western Regional Sales Manager, AdEdge Water Technologies, LLC (480) 243-1824. **6/30/2016:** Mettler Valley Mutual Water Company is working with Cindy Cook with California Rural Water association (CRWA) and an Engineer from NV5 for grant process. In June, 2015, the water system became a tax-exempt organization under Section 501(c) (12) and the funding is in financial stages. The water system is working with AdEdge Technology regarding different arsenic removal treatment systems. On April 7, 2016, LPA had conference call with Lawrence Sanchez from State Water Resources Control Board. As per the discussion, the water system operator has been told to contact Cindy Cook to get assistance for treatment options for Arsenic. Full SRF application submitted. District Office clearance 6/30/2014. The non-profit application has been submitted but needs to be updated by the State Water

10/6/2016- Spoke with Alisa Morrison. The water system has applied for funding. Tony Morrison (water system operator) attended the Arsenic workshop on July 6, 2016. They have looked into treatment options (with Isolux Company) but determined it was too expensive (45-50K). Alisa Morrison stated that POE treatment will be too costly because of the additional testing that will be required. The Village MHP is continually looking into more affordable treatment options but so far have not found any. They are currently providing 5 gallon jugs of bottled water to their residents. **6/30/2016:** The water system operator has been consulting with Isolux Company for water treatment options. They are also working with Cindy Cook with CRWA to apply for funding. They are attending Arsenic workshop on July 6, 2016 at Palmdale Water District to check for more treatment options. On April 7, 2016, LPA had conference call with Lawrence Sanchez from State Water Resources Control Board. As per the discussion, the water system operator has been told to contact Cindy Cook to get assistance for treatment options for Arsenic. Full SRF application submitted for consolidation with LACWWD. According to Lawrence Sanchez, from the State Water Resources Control Board (818-551-2017), the application is pending review by the State Water Resources Control Board. **2015:** Full SRF

10/4/2016- Received an email from Charles Norris. See attachment. **6/30/2016:** On June 28, 2016, Los Angeles County Drinking Water Program (LADWP) received Project Extension Notice for Mitchell's Ave (Funding Agreement Number 14-581-550). The original deadline was July 16, 2016 and the requested time extension us July 24, 2017. According to the project schedule, POU/POE installation will be done by June 26, 2017. On April 7, 2016, LPA had conference call with Lawrence Sanchez from State Water Resources Control Board. As per the discussion, the water system operator has been told to contact Cindy Cook to get assistance for treatment options for Arsenic. SRF full application submitted for consolidation with LACWWD. They are in Planning Study Stage. **2015:** SRF full application submitted for consolidation

The LPA

Referred to EPA -- EPA issued NOV on 10/17/2016. 7/25/2016: No status change from previous update. **6/13/2016:** Well 8's latest arsenic concentrations was at 10 ug/L and 10.2 ug/L. The Company is planning to further reduce Well 8's production from 600 gpm to 400 gpm, hopely to lower asenic concentrations. Well 7 is not permitted yet, still waiting for SC Edison to hook up the power, initial arsenic sampling showed the concentrations was at 7.5 ug/L, it is too early to discuss its arsenic compliance. **April 18, 2016:** Well 8 was out of compliance with arsenic MCL in the first quarter of 2016. **January 11, 2016:** Well 8 was out of compliance with arsenic MCL in the fourth quarter of 2015, the Company will take another arsenic sample for Well 8 on January 12, 2016 to confirm the forth quarter's result of 21 ug/L. The new Well 7 is drilled, however, it is waiting for SCE to install new power line. **9/14/215:** the drilling of a new well, Well 7, is in progress. Enforcement History: May 23, 2008 - Notice Of Violation issued for violating Federal arsenic MCL. January 6, 2009, Compliance Order issued for violating arsenic MCL (this Compliance Order did not meet EPA's formal action criteria). April 18, 2012, Citation issued for failing to comply with arsenic MCL and following through with funding per the Compliance Order directive. February 2, 2015, issued Compliance Order for violating the arsenic MCL (this Compliance Order contains a RTC date). Current Plan: The Company modified Well 8 casing perforations and

10/31/2016 No status change from previous update 9/13/2016: after discussion with DE and EPA, we will be RTCing this system after we get the date when the system physically removed the source from the distribution system.

9/8/2016: Liberty High School has 2 sources. The North Well (LPA source 2000150-001) and the West Well (LPA source 2000150-002). The water system is utilizing the North Well to supply the water system since that source does not exceed the arsenic MCL. **8/3/2016** Water System considering consolidation with nearby water systems, i.e. MD 10 & Valley Teen Ranch.

10/31/2016 No status change from previous update. **8/2/2016** No status change from previous update.

4/28/2016 No status change from previous update. **1/15/2016** Still waiting for 2015 Arsenic sample to come in. Still working on consolidation with Bass Lake Annex Mutual Water System.

		0	EPA recommends escalated enforcement.
		0	
		0	It appears that only a date is needed here. Please also include a statement that an inspector has verified that the high source has been physically disconnect from the DS.
		0	1 year has passed and this PWS has done no monitoring. EPA recommends escalated enforcement.

9/8/2016: FFAST Planning Application completed 3/22/2016; The water system is out of compliance with the arsenic MCL and uses the same source water as the Cedar Valley Mutual Water Company. Cedar Valley is currently working on an application for DWSRF funds to install a filtration system for removal of the arsenic. The Yosemite Forks Estates Mutual water system needs to submit an application for DWSRF planning funds and determine a mutually agreeable solution to ensure that the water delivered to the customers meets all of the primary and secondary drinking water standards. A meeting will be held to discuss expected outcome and challenges. Coordinate with Cedar Valley since only one treatment system will be built. An agreement will need to be made to construct and operate the treatment plant. Yosemite Forks Mutual water system will receive assistance with completing the required documents for the DWSRF application. Plan to submit SRF application beginning 2015 **6/13/16**
(JG): No application has been submitted and they are not currently working with DFA staff.

WS applied for SRF planning in 2013 but have not reached a planning FA yet

SRF Funding. Working on funding application using Assistance Referral.

After 36 months of planning FA the project has not met its FA milestones and is requesting another 18 months of planning

Prop 84 Planning and feasibility FA issued

10/31/2016 No status change from previous update **8/02/2016** There has been no update from them.
4/28/2016 Waiting for Resolution in the funding application process. Added additional storage to help with blending. Issued amended compliance order on 06/10/2014 with new compliance deadline date.

10/31/2016 No status change from previous update **8/02/2016** Third Quarter under MCL for Arsenic. Water System submitted documents as requested and updated their Planning Application. **4/28/2016** 2nd quarter under 10 ug/L since 2009 Board to meet in May; collecting docs now for funding. **1/15/2016** 1st quarter under 10 ug/L since 2009. **12/8/2015**-LPA asked the DE about the whether it is possible to provide bottled

10/31/2016 No status change from previous update **8/02/2016** No Updates. **4/25/2016** Application completed for funding; standing by for Project manager contact and Post submissions.

10/31/2016 No status change from previous update **9/8/2016**: The specific time frame for consolidation is still not set. There is a State project to consolidate MD#6, MD#7, and Bass Lake Water Company. The proposal is to consolidate and construct a regional treatment plant for all combined systems instead constructing three small treatment systems. The feasibility study has been approved. Project is moving forward, and an extended 18 months for planning is not a concern since a lot of these homes are seasonal homes during the summer. **8/02/2016** No status change from previous update. **4/28/2016** No status change from previous update. **3/10/2016**: Bottled water is being served to anyone that resides in their homes year round. The homes are vacation homes and not all residents reside there more than 6 months out of the year. The system is close to consolidating with MD #7 and Bass Lake water

10/31/2016 No status change from previous update **9/8/2016**: The specific time frame for consolidation is still not set. There is a State project to consolidate MD#6, MD#7, and Bass Lake Water Company. WS only just applied for SRF planning in October 2014

After 18 months of SRF Planning the project has not met its FA milestones and is requesting another 18 months of planning

After 36 months and 2 SRF planning FA's the project has not met its FA milestones and is requesting another 18 months of planning

FOR PROFIT, SRF NOT APPLICABLE

6/13/16 (JG): The County completed planning in 2015 and applied to DWSRF/Prop 1 through FFAST for construction 3/1/2016. Currently updating their environmental documents and getting updated financials to complete application.

6/13/16 (JG): Madera County has applied on behalf of VTR to consolidate them, the County is currently completing its Environmental document for the construction project, should have complete application by September 2016.

10/31/2016 No status change from previous update **9/8/2016:** The FAAST application was submitted 2Q2016.
8/02/2016 No Status Change from previous update. **4/28/2016** No status change from previous update.

9/13/2016: Per the DE, the previous funding agreement terms expired and this is why it took so long to get a new planning FA executed (\$232K, planning to be completed by 12/13/2017). A test well has been drilled and the system is a part of a regional planning project. Installation of treatment and the construction of a consolidation pipeline are still needed for the construction phase of the project, which is expected to start in 2018. **9/8/2016:** As of 8/8/2016 arsenic single sample results are 13 UG/L. 18 months of additional planning is being requested because the proposed treatments are not acceptable as permanent treatment. Alternative treatments are being considered. **8/2/2016** No status change from previous update. **4/28/2016** No status change from previous update.

10/31/2016 No status change from previous update **9/8/2016:** Proposed treatments have been deemed not acceptable as permanent solution, as a result alternative treatments are being considered for the consolidation project. The water system is looking for acceptable treatment options that would qualify for funding. **8/3/2016:** There has been no updates on the water system. **6/29/2016:** District Engineer has notified the School that they could apply for bottled water but likely won't pursue it because they know that the long-term solution is in the works. **4/28/2016** No status change from previous update. **3/10/2016:** The system is consolidating with MD#8 North Fork water system. Madera County Environmental Health Division can suggest the school provide bottle waters to all staff and students. However, the school needs to update their Planning Agreement as their previous Planning Agreement expired. A new request has been sent to their contact Fred Faysal. **12/8/2015**-LPA contacted DE for DFA update. A meeting was held

10/31/2016 No status change from previous update **9/8/2016:** You are correct, this compliance order is a duplicate that was issued when the 3rd well exceeded the RAA for arsenic. The correct comply by date is 5/3/2019. I will amend the compliance order to include all 3 sources that exceed the arsenic MCL. Wendy has corrected the master spreadsheet. The water system has corresponded back to Madera County indicating they will comply with the directives of the compliance order. They are currently looking at POU as a possible treatment. **8/3/2016** Compliance Order is active because water system decided to keep wells active. Public Notification Provided. Change of Operator. In contact with new operator and he has hired someone to prepare a conceptual plan for obtaining compliance. **4-28-2016** 1Q2016 16; OVER THE MCL RAA, NEW COMPLIANCE ORDER ISSUED FOR WELL3. **1-15-2016** Well 1 has been inactivated from the water system. The new well was supposed to bring the system back into compliance however the

8/2/2016 No status change from previous update **4/28/2016** No status change from previous update

8/2/2016 Awaiting for results. **4/28/2016** No status change from previous update

8/3/2016 2016 4th consecutive Q out of compliance. **4-28-2016** 3rd consecutive Q out of compliance.
01/15/2016 Revised CO will be sent to water system because it was not sent in June 2015. Water system was in compliance for 1 quarter, but has been out of compliance 2 quarters now. Public Notice Provided to Employees. A second compliance order will be issued with new compliance deadline date.

		3	EPA recommends District or EPA oversight for Madera County self-regulated compliance scenarios with significantly protracted planning projects.
		0	EPA recommends District or EPA oversight for Madera County self-regulated compliance scenarios with significantly protracted planning projects. MD8 also has not reported a recent RAA.
		0	Please help us to understand why the school feels that a long-term solution is in the works when proposed treatment strategies are deemed unacceptable. This school should be providing bottled water. Further, please clarify the proposed solution: consolidation, treatment, or both?
		0	What is the proposed solution? The reported RAA is confusing, is the RAA being calculated for entry point to the distribution system? Are there multiple EPs? This is a system that has been out of compliance for several years, it is unclear why the RTC compliance date has been set beyond 2018.
		0	DFA: Is the system providing the necessary information to keep the funding process moving?
		0	DFA: Did the complete application get submitted?
		0	What is the proposed solution?

Application submitted for SRF Tier 2 Feasibility Study
Feasibility Study underway thru P84

UPDATE: (4/25/16): Project was rebid and the contract for the various contracts should be awarded in the next couple of weeks. HWC is ready to move forward once the contracts are awarded. UPDATE (KDC - 9/29/2015) - Project out to bid but the bids came in over budget. Looking to rebid the project with a modified bid schedule to hopefully get the project completed within the allocated budget.
Updated 4/25/2016 - KDC: Project is underway. Some components of the new system are being bid with the Oakhurst/Sierra Lakes Project to make the projects more affordable.
6/29/2016: They have continued to have difficulties with getting the blend treatment going. They are currently just using Well No. 401 and not Wells Nos. 1 and 2. However, if demands increase, then they would need to use Wells Nos. 1 and 2 (high arsenic wells) to meet demands. 5/7/2016 - KDC: Blending treatment should be operational by June 30, 2016. 3/10/2016: system will be in compliance by the end of March 2016 by either blending or using the intertie with the adjacent prison's well. 11/2/2015 - KDC: Blending treatment should be operational by Dec 31, 2015. Mechanical Updated 4/25/2016 - KDC Proposing to install a POU device at the Industrial Park for removal of the arsenic.
Updated 4/25/2016 - KDC Compliance Order issued. FF recently installed an RO unit at another facility and is planning to test the unit and then begin work on getting a similar unit installed at this location.
Update 4/25/2016 - KDC: The System has worked with the manufacturer to optimize the arsenic removal treatment plant. The monthly arsenic test results have been below the MCL but the RAA is still over the MCL. The System anticipates having and RAA less than the MCL in the 3rd quarter of 2016. We should be able to return this system to
6/20/2016: Back-up help couldn't find the public notice info for Mono Sierra East so we will have to wait till Jon gets back from medical leave in July. 2/2/2016-4Q2015 MCL violation entered into Envision. 12/11/2015-M&R violations is due to system not monitoring and lack of an operator. DE updated that SRF funding is being processed by funding
11/14/16 - Bridgeport adopted rate increase in October, Need FA to begin construction. 7/26/16 - Revisions to final plans/specs need to be submitted. Status meeting, site visit scheduled for 8/2/16. 6/24/16 - One elementary school served. Exploring bottled water option for upcoming school year. 4/28/16 - FAAST application submitted Feb 2016. Final design, plans, specifications under review. Per DFA on 4/27/16, expect 6-12 months to issue construction funding agreement, begin construction Spring 2017. 1/29/16 - DO accepted preliminary engineering report on 11/18/15, Bridgeport is beginning water rate study and preparing to submit FAAST application in Feb 2016. 10/2/15 - DO is
6/27/2016: SPCA WS- they said they were having difficulty with the regional sewer plant taking the waste so they are installing drying beds. 11/3/2015-Waiting to see if nearby system with installed treatment can resolve waste discharge
5/11/16-April finished water was 32 ppb so plant is still having issues with maintenance. 3/7/2016:they are tweaking their treatment process (updating software to better control backwashes and just added a coagulant feed. The new compliance date is June 30, 2016. If the upgrades don't work, then we will send another compliance order (or citation). 1/29/15- added chemical feed and upgrading software/controls to improve backwash- next few months will indicate if successful. 12/1/2015-Will work with engineer to determine why it's not working. 11/3/2015-treatment plant not
6/27/2016: They want POE, which is not allowed for compliance purposes by our local ordinance. However, since the state is developing POE/POU regulations, Monterey county is considering amending the ordinance so this may become a viable option if they meet the criteria. 12/24/2015-The compliance order has been updated and the initial compliance plan is due December 31, 2015. System is looking into treatment
6/27/2016: System has indicated desire to stay on bottled water. Updated enforcement will be issued in July 2016 indicating bottled water is not long term solution. 5/11/16-Plans have been completed. Principal is interested in staying on bottled water so an updated compliance order is in process. 12/1/2015-The project is moving. Peter Haase at Fall Creek said he would deliver the Plans and CEQA documents by this week, but DFA has not received the documents yet. Back in September/October, the new Superintendent had concerns on the monthly operating costs and he was going to discuss with the School Board. Construction most likely it will be funded with DWSRF and/or Prop 1 money. 11/3/2015-engineered plans for full scale treatment plant completed. 6/1/2015-Pilot test completed and

1Q/2016-76
1Q/2016-57
2Q/2016 - 10.4 (At Compliance Sampling Point located downstream of storage reservoir)

6/27/2016: blending is no longer viable option since further testing showed the other well also is high in arsenic. The system missed deadline for compliance plan so enforcement is pending. 12/24/2015-The compliance order has been updated and the initial compliance plan is due December 31, 2015. System is looking into treatment. No recent TCR
6/27/2016: they want to use Isolex and have hired engineer to design plans. Self funding.
6/27/2016: proposing POE's and system would fund.
6/27/2016: plan is delinquent so enforcement is pending.
6/27/2016: They may not meet the July 2016 date since they are very interested in POE/POU, which our county is just now considering so they need to do the cost analysis. We will reevaluate plans due date when we get the selected option. 2/24/2016: is not part of a disadvantaged community. They are self-funding their project by increasing rates or special assessment. Their first milestone is: <ul style="list-style-type: none"> • July 2016- determine preferred alternative – consolidation or treatment. • Jan 2018-develop plans • June 2018-implement compliance option 12/24/2015-They submitted initial compliance plan in September. They are researching treatment and intend to self
6/27/2016: They are deciding between installing a new treatment plant or purchasing water from Washington School (next door and preferred option). Washington School is stalling on implementing treatment so updated enforcement is pending. 12/1/2015-Proposed solution has not been determined yet. 11/3/2015-treatment plant was working, but system removed treatment plant in July 2014 said too expensive to operate. New compliance order to be issued.
11/4/2016 - Sierra County WWD #1 - Calpine completed construction of the wellhead arsenic treatment system at Well 02 on 10/15/2016. Purging and testing was run to waste and the effluent samples tested ND for bacti and arsenic. DDW sent a letter of approval for operation prior to the permit amendment completion on 11/4/2016. The water supplier returned to compliance on 10/25/2016. Entered in SDWIS 11/2/2016. 8/1/2016 - Plumas-Eureka CSD held a conference call with representatives from DFA and DDW on July 13, 2016. The discussion included a list of requested revisions to their SRF planning loan application that eliminated the intertie alternative and provided for appropriate CEQA documentation. The new consultant, FarrWest Engineering (Reno), was hired on July 13, 2016 to provide an alternatives analysis and PER to return to compliance with the arsenic MCL. DDW is revising a new compliance order to reflect a new schedule for deliverables because of the time needed to process the SRF loan application, but the final cease and desist date of November 2017 has not been revised. 4/18/2016 - Met with the District board three times during the months from October 2015 to February 2016 to discuss the inadequate proposal and timeline for compliance. The submitted PERs did not describe adequate alternative analyses that included an intertie with a local community and the issues that may have been important to the proposed project of arsenic treatment, such as easements and rights-of-way. 9/22/15 - Lassen District Staff met with system and consultant. Some of pilot test data did not look like it applied to the system well. Looks like they won't meet 11/1/16 deadline. The system has submitted a proposal for additional piloting but it would not be completed until March of 2016. Preliminary estimate for a treatment plant is \$3M. In its evaluation of alternatives the system did not do a thorough evaluation of consolidation. A nearby (~ 1 mile) privately owned water system, Graeagle Water Company) with supply that meets standard that could be used to blend with high arsenic water. Reevaluation of possibilities by November 1, 2015. This appears to be

DWSRF

Owner submitted pre-application for state funding in 2010.

Currently working with CRWA to submit FFAST application to State. 6/13/2016 (LPA): Water system is working with CRWA on FFAST application. Application is due by 8/31/16. 6-10-16 (DFA): Have applied for Groundwater funding for Chrom 6 problem in FFAST but no application for Arsenic in FFAST

Corrective Action Plan due to LPA no later than May 2, 2016.

The water system just finished a coag/filtration pilot study. Awaiting pilot study report.

The system's engineer submitted a proposal to the County for review. System previously indicated their intent to fund project on their own, but I have not received a formal response yet. 4/15/16 Water system submitted application to drill new well and submitted proposal for a pilot study to determine which arsenic treatment media they will choose.

Prop 84 construction project application being processed for review.

	1/7/2015 Planning Application Submitted.

Agreement Number: D16-02012, Project Number: 3301380-001P, 7/1/2015 Application Deemed Complete. 8/31/2016 Draft Planning Funding Agreement sent to system.	

<p>11/24/2015-Saint Anthony submitted application at end of Oct 2015 for planning funding. Still has an assistance referral for TMF due in January. Owner has obtained a conditional use permit through Riverside County. A condition of the CUP is to provide centralized treatment prior to issuance of any building permits. The existing treatment station has been approved as an interim solution until centralized treatment is installed. This is a county code case. The LPA is working with other Departments to permit this park and obtain compliance. 10/25/16: Please see notes on funding and planning section. 7/21/16: Plans have been submitted for new distribution system. Treatment plans are pending. The LPA and our state DE would prefer that this system consolidate with Coachella Valley Water District (CVWD).</p> <p>6/5/2015-Tier 2 arsenic notifications issued quarterly. Well is sampled for arsenic quarterly. Saint Anthony MHP is an unpermitted park. Owner has obtained conditional use permit through Riverside County. A condition of the CUP is to provide centralized treatment prior to issuance of any building permits. The existing treatment station has been</p>
<p>10/25/16: Treatment plans approved 9/14/16. Condition of approval is that treatment system must be operational by 4/1/17. Tier 2 arsenic notifications issued quarterly. Well is sampled for arsenic quarterly. System is classified as a non-</p>
<p>10/25/16: FAAST application has been submitted. Still needs to be reviewed by State. 7/21/16: Water system has contacted CVWD about consolidation. LPA contacted CVWD re: consolidation. CVWD states that this water system is interested in a master meter and they are in discussions with water system. Oasis Gardens is working with CRWA on a FAAST application to consolidate with CVWD.</p>
<p>6/9/2016: Water system has secondary well on site that they are going to test Arsenic levels to determine if that is below the MCL. Sample results due no later than August 2, 2016. 3/15/2016 Water system issued compliance order for ARA exceeding arsenic MCL. 8/2/2016 Water System is currently getting bids from three companies to determine</p>
<p>12/29/2015-Data needs to be cleaned up in SDWIS to reflect current status. SOX may be deleted and violations may be reassociated with old compliance order. LPA will reassess on whether this system has RTC. 11/30/2015-LPA was planning on revising compliance orders with a RTC date of 11/16/2016. No longer going to create public entity. Water System just changed ownership in July 2015. Water system is planning on public meeting on 4/20/2016 to look at connecting smaller water systems into a larger water system. Water system ARA has dropped below the MCL.</p>
<p>9/6/2016: Water System is going to spend the rest of their grant money on connecting to another SWS. They are waiting on the county to provide them with a contract for the service connection. 6/9/2016: Water system has not signed a contract with the larger utility. Water system is not going to do treatment as they cannot afford O&M costs. 11/30/2015-LPA was planning on revising compliance orders with a RTC date of 11/16/2016. Water System finished pilot study. Water system is looking into consolidation with another SWS. Water system had a public meeting on</p>
<p>6/9/2016: Water system hired engineer to determine operation issues with the water system. 11/30/2015-LPA was planning on revising compliance orders with a RTC date of 11/16/2016. Operational issues. Water system changed ownership 3/24/2016. 8/2/2016 Water System is on a compliance order to determine what the operational issues are.</p>
<p>6/9/2016: New well was dug May 2016. Arsenic has not been tested for since well was dug. 12/23/2015-LPA states that the water system will be receiving a revised compliance order by the end of the year. 11/30/2015-LPA was planning on revising compliance orders with a RTC date of 11/16/2016. Well #3 is no longer on line 3/15/2016 Water system has submitted application to drill a new well and conduct a pilot study on new well to determine which treatment system will be installed. Well construction permit issued 2/18/16</p>
<p>6/9/2016: Water system is in contract with larger utility to connect in October 2016. 11/30/2015-LPA was planning on revising compliance orders with a RTC date of 11/16/2016. Constructing line to consolidate or be a consecutive system with a larger system. Construction for new line to larger water system will begin in fall 2016.</p>

6-10-16:No Appication in FAAST

Applied

Prop 84 planning project funding agreement term expired. Project is pending completion certification.

2/5/2016-Ironwood Campground was cleared by technical, environmental and financial staff in the end of 2014. In April 2015 DFA legal counsel determined that the language in the applicant's bylaws prevented the State from doing business with the entity. This was because they discriminate on who can be a member of the community (campground) and our legal counsel determined that we would be violating state law to funded the project. As a result, the application was inactivated. Submitted Application on 3/26/14 for planning funding

6/9/2016: Water system is still currently connecting piping from new well to distribution system. April sample results for new well were 13 ug/L. 12/23/2015-LPA states that the water system will be receiving a revised compliance order by the end of the year. An inspection for was conducted in April 2015 and the well has not yet been finalized yet. The LPA has not heard on when the new well will be put online. 11/30/2015-LPA was planning on revising compliance orders with a RTC date of 11/16/2016. In contact with well driller to put wells online. New well has completed T22

6/24/2016: The system has been in talks with neighboring water system to consolidate however no formal plans have been submitted. The LPA will send out an amended CO and give them 3 years to comply. 5/12/2016-the water system is working with Tetrtech to provide a RO treatment unit. The operators met with EHS in September 2015 to discuss brine disposal options and were referred to the RWQCB for guidance. 12/1/2015-The system applied for funding and is working with CRWA to gain compliance. 6/2015-Talked with RCAC regarding funding possibility. EHS will issue citation

6/24/2016: Formal plans for the proposed RO system have not been provided. The LPA will send out an amended CO and give them 3 years to comply. 5/9/2016-The water system is working with Tetrtech to provide a RO treatment unit. The operators met with EHS in September 2015 to discuss brine disposal options and were referred to the RWQCB for guidance. 12/1/2015-The water system is working with Tetrtech to provide a RO treatment unit. The operators met with EHS in September 2015 to

6/24/2016: LPA approved the arsenic water treatment plans. System is in the process of being installed. 5/9/2016-EHS is reviewing plans submitted by the water system for an AdEdge arsenic treatment unit. EHS is reviewing plans submitted by the water system for an AdEdge arsenic treatment unit. 11/2/2015-Treatment unit plans were submitted to EHS for review.

6/24/2016: Had a meeting on 6/22 with water system to discuss compliance plan. The water system is to meet with Hi Desert regarding intertie as back up to primary well. 5/9/2016-Design complete for interconnection with High Desert Water District. Awaiting prop 84 construction funds. 5/5/2016: Issued NOV on 3/29/2016 and now are now in negotiations with the county. Flouride and Uranium were also added as constituents that were above the CA MCLs and were included as information only since the Fed EPA cannot enforce them. 3/8/2016-DDW has requested that EPA issued a compliance order. 2/18/2016-DE followed-up with San Bernardino County Special Districts, who operates the water system, about providing bottled water, and they discussed about applying through FFAST for the interim CAA emergency funds. The CSD have not been directed by the LPA to provide bottled water, so th DE gets the feeling they are hesitant to do so. The DW will keep the discussion going. There is a resolution to this in the works. Last year they completed a P84 planning project to design a 5-mile pipeline to the nearest WS, and DFA is reviewing their construction application now. They are hoping to get the FA out soon and start construction this summer. The DE didn't think he had a project where DFA was keeping the district office out of the loop, but this is one. He learned from DFA

9/16/16 - A viable plan has not been submitted at this time, we are working with the PWS. 6/24/2016: Water system unable to apply for funding and has not provided a viable compliance plan. A citation will be issued and an amended compliance order issued to comply in 3 years. 5/9/2016-Water system submitted a compliance plan however it lacked details on how compliance would be achieved. EHS is following up.12/1/2015-Water system submitted a compliance plan however it lacked details on how compliance would be achieved. EHS is following up. 6/2015-EHS will issue citation without a fine

9/16/16 - They have determined that because of their bylaws they would not be accepted for funding so have not reapplied. Their comment: "We are working on a plan to expand our RO coverage but it will take time to fund and implement. Currently everyone we provide water for obtains their drinking water from our RO system. We have had a large RO unit donated to our organization which triples our production ability. Again it will take time to secure funds necessary for the install and to do the install." 6/24/2016: Water system applied for funding but cannot be approved. The LPA will issue an amended compliance order requiring compliance in 3 years. 5/9/2016-Water systems currently has an RO system that serves the dining hall, both coffee shops, etc. however staff residence are not served. The system has applied for funding. 12/1/2015-Water systems currently has an RO system that serves the dining hall, both coffee shops, etc. however staff residence are not served. The system has applied for funding. 6/2015-Sent water

		#N/A	What is the RAA and RTC date for this system?
		38	Need updated RAA and updated status
		78	Need updated RAA and updated status
		59	Need updated RAA and updated status. Is treatment installed?
		34	
		25	Need updated RAA. What is the status of the compliance plan? Should enforcement be escalated? Given the duration of the MCL violation and being 3X MCL, this system should RTC by the end of 2018 consistent with the Arsenic Work Plan.
		104	Given the duration of the MCL violation and being 3X MCL, this system should RTC by the end of 2018 consistent with the Arsenic Work Plan.

SRF

Awarded Prop 84 feasibility study grant on 11/28/2012. Project in progress, expected to complete by 11/28/2015. 6/10/2016 NJG - P84 feasibility study was completed on 4/25/16. The City is preparing the CEQA documents and DWSRF construction application. Bottled water is not being supplied from P84 75021 program, but we will reach out to the school district to see if they are interested.

NONE. SRF application submitted 2008 was for nitrate not arsenic. Waiting on Century MHP SRF approval for city connection. This system can make a connection to city water off of new line to Century MHP.

[illegible]

11/4/16 - Agreement No. D16-02007 was issued on 9/28/16 to Warner School from DFA for the permanent solution and included the transmittal Letter, Funding Agreement/Exhibits, signature pages and Draft copy of the General Counsel Legal Opinion Letter. The School Board approved the package and currently the legal general opinion form is being completed by School attorneys. The Clean-up & Abatement Fund agreement is being reviewed by DFA analyst.

6/15/2016 - Application for Clean-up and Abatement funds for interim solution was submitted in May 2016. Mark Magtoto of DFA indicated the application would not be considered since the engineering design from NV5 included a POE for the cafeteria building and not a POU as used in other schools with an Arsenic exceedance. A conference call between NV5, CRWA technical assistance provider, Mark Magtoto of DFA, LPA, Certified water operator, Warner School representative and DE happened in 6/2016 and addressed how to move forward. Engineer NV5 was to investigate the POU used at another school in the State and report back to the group. All documents have been submitted to Brenda Pauli of DFA to complete the application for funding for the long term solution. Application is under review and will take several months per Brenda Pali.

11/20/2015-The LPA had a conference call with Warner School today. Kyle, Brenda, Sean, Connie, Noel and the school were present. There are two items missing from the application to make it complete:

- Authorizing Resolution
- Schedule of System Obligations

The school board meets next on December 8th, at which time these items can be addressed. In the meantime the school will complete a Prop 84 application to request funds for bottled drinking water for staff/kids. The LPA is planning on visiting the site while the students are on winter break. At that time, or shortly after their visit, they will issue a revised Compliance Order that meets the approved State requirements. They will work with the DE or DDW staff to ensure that it meets all of the criteria needed to be a formal EA.

6/2015-The water system has two separate distribution systems. Well 3 is located east of Highway 79 and serves a high school, elementary school, bus maintenance building, office and residence. Well 4 and 5 are located west of

6/13/16, This is State funded project and San Joaquin County Public Work Department is working on the plan for the new water line extension. Once the County approves the water line extension, the City of Stockton will start the connection process. 1/11/16 CRWA is continuing to work with city and water system towards making a connection using SWRCB Funds. 11/19/2015-As this is a state funding project. The LPA has no idea on the RTC date. LPAs do not write new compliance orders with new RTC dates this is a funded state project. 11/2/2015- Julie Martinez of Cal Rural Water is working with City of Stockton for funding agreement to make a connection to MHP. Engineered Plans

6/13/2016, This is a State funded project and CRWA is working with the water system and San Joaquin County LPA is unaware of the status. 2/22/2016: Reid Johnson of Nolte Vertical 5 is the consultant working on this project. This is a SB funding project that provides money to the City of Manteca to install a new Source and to make a connection to this school through an Emergency out of Service area LaFCO connection. 1/11/16. Consultant, Reid Johnston, is continuing to working with water system and city to make this connection using SWRCB Funds. 11/19/2015-As this is a state funding project. The LPA has no idea on the RTC date. and the LPA doesn't write new compliance orders with new RTC dates when they are being funded. 11/2/2015- LaFCO approved out of service area connection. City working with CRWA for making a connection to the school . 3/31/15 -Sent emails to School, Engineer, City PW and State for update on progress to connect to city. No one at City or State knows where this funding project is at. 3/21/14-applying for

6/13/2016, This is a State funded project.

Yes, bulk hauled water is provided by Aero Pure Water Company.

The test well was drilled and destroyed on 10/28/2015. 1/11/16 Julie Martinez of CRWA is continuing to work with the water system to obtain the proper paperwork for SWRCB funding to make a connection with the City of Stockton.

6/1/2015-System lacks money. Public Notification.11/2/2015-Julie Martinez of Cal Rural Water contacted Silvia regarding needed documentation. Silvia has not yet been able to locate anything but the deed, but she has not yet sent it to me. Silvia gave permission to contact her lab and Quality Service, Inc. for additional information. A scheduled site

WORKING ON PLANNING LOAN I THINK (check with Jeff Densmore)

6/13/2016, Contractor has submitted the second round of corrections to San Joaquin County Public Work Department pending for approval to install a 12" Water main extension. If not finished by the end of this year, A new order will be issued with a new RTC date. 1/11/2016- On 9/15/15 the LPA was made aware that the new source collapsed and was no longer a viable option. The water system was directed to obtain a Will Serve letter from Cal Water Services for a connection. On 9/29/15 the LPA received a copy of the "Will Serve" letter that confirms Cal Water Services will service this parcel. The Water System is working with Cal Water Services and Cal Trans for permits and approval to cut through the road to make a connection with the Water System. This connection should be accomplished by March 2016. 11/2/2015-New source Well collapsed. They received a Will Serve letter from Cal Water and will be making a connection within the next 12 months by 10/2016. 3/1/2015--Cal Trans completed Hwy 99 construction and took property away from this system. Now in process of installing new separate drinking water distribution system from a new source that meets arsenic standards. 2/1/15 received plans to separate industrial water use from potable use

10/31/16 - System Drafting Proposal which includes a lease and maintenance contract for POU units, pilot study to be included as part of proposal **5/4/2016**-DE received a call from a water system representative saying they are ready to move forward with funding and treatment.1/29/16 - Neighboring development reaching out to from larger service area, would add an Arsenic well but pooling more connections may be beneficial **12/1/2015**-Country Hills really can't consolidate with any local system - they are still looking at the POU option. There is a large adjacent parcel which is trying to split into 22 lots. This parcel has one well (with Arsenic) but they might be willing to throw money at Country

10/31/16 - Construction Funding Application in **5/4/2016**-The school just wrapped up their pilot study and we are meeting with them Monday to discuss the project moving forward. 1/29/16 - pilot plant continues to operate, data thus far shows that arsenic is reduced from approximately 12-13 ppb down to ND. **12/1/2015**-the plant was brought on-line about a week ago. The LPA has not seen data yet. They are also exploring a new well and are looking at sites. Still in

11/4/2016 - Sierra County WWD #1 - Calpine completed construction of the wellhead arsenic treatment system at Well 02 on 10/15/2016. Purging and testing was run to waste and the effluent samples tested ND for bacti and arsenic. DDW sent a letter of approval for operation prior to the permit amendment completion on 11/4/2016. The water supplier returned to compliance on 10/25/2016. Entered in SDWIS 11/2/2016.8/1/2016 Sierra County WWD #1 - Calpine submitted their quarterly report in accordance with the Compliance Order. It describes the work to date on the wellhead treatment system they will be installing in September 2016. They indicate the self-funded construction project is still on schedule for wellhead treatment completion and compliance with the arsenic MCL by November 2016. Filter vessels and media are in process of being installed. **6/27/2016**: the District has informed us in writing that the well head treatment project is on schedule Completion of construction is expected in the next 60 days. Once construction is completed the design engineer and system's chief treatment operator will work together to commence start-up testing. 9/22/15 - Proposing a quick time line project to put in well head treatment. Piloted adsorptive media. Will be able to meet November 1, 2016 deadline to be in compliance. However, they didn't apply for SRF. Skid mounted treatment system. Set up for CRWA circuit rider to help with putting an application together but they have decided to fund project with their own money. **7/1/2015** - DDW issued a second compliance order to the District on March 4, 2015 which included a Nov 2016 compliance deadline. The Order directed the District to present a Corrective Action Plan by April 1, 2015 which they did not meet. As a result, DDW issued a citation with \$500 penalty to the District on May 8, 2015. The District submitted a Corrective Action Plan on June 10, 2005 which is to provide wellhead arsenic treatment (absorptive media) at their one high arsenic well. Preliminary construction drawings were submitted

9/2/2016: Letter stating we did not receive a corrective action plan was sent 7/19/2016. Next action will be: either we receive a viable plan or take further enforcement action 10/10/2016. POU not feasible. Ion exchange treatment is the most likely outcome. Enforcement action set 4/10/2018 RTC deadline. System is a resort RV park and mobile home park combination. They may also choose to limit occupancy to achieve TNC classification. **9/22/2015** - System has decided to use POUs for compliance. Detailed proposal is due at the end of this month. April 10, 2018 is deadline for compliance.

6/26/2015 The system was to submit a response by to the Order by May 22, 2015 indicating their cooperation in complying with the arsenic MCL (they did this). They are investigating cost/benefit options of four types of well head

No SRF application
6-10-16; MPP will consolidate with Keyes. The construction FA is getting very close. We requested FY 14/15 audited financial statements, which Keyes will submit by the end of the month (6/16) at the latest. Everything else from an SRF standpoint appears ready to go. However, we may be able to get them additional grant funds through a new groundwater Prop 1 funding program. That program doesn't have their process/structure in place yet. If we funded the project solely with SRF money, I'd project an August 16' FA issuance. If we co-fund, it will take longer

10/26/2016: POU permit application has been reviewed, waiting for system to submit additional and updated documents to complete the application.

7/25/16: Water system has submitted permit application to add POU treatment. Application is in process of being reviewed.

6/16/2016: Water system is not on track with CO. New projected RTC date is July 1, 2017. **4/20/16-** The system continues to work on the permit checklist items and follow the directives of the CO. **1/11/2016** - Sent a permit checklist for POU and reactivate Well 01 on 11/2/15. System requested extension to 6/1/16 to submit the items on the permit checklist. The system has been submitting quarterly progress reports and PN as directed in the CO.

9/22/15 - System in process of evaluating alternatives (POU).

6/30/15 - Compliance Order issued on 6/3/2015. System is starting the process to evaluate a solution.

Issue either a permit or CO. Review proposed POU/POE regs

10/26/2016: POU permit application has been reviewed, waiting for system to submit additional and updated documents to complete the application.

7/25/16: Water system has submitted permit application to add POU treatment. Application is in process of being reviewed.

6/16/2016: Water system is not on track with CO. New projected RTC date is July 1, 2017. **4/20/16-** The system continues to work on the permit checklist items and follow the directives of the CO. **1/11/2016** - Sent a permit checklist for POU treatment on 10/30/15. System requested an extension to 4/1/16 to submit the items on permit checklist. The system has been submitting quarterly progress reports and PN as directed in the CO.

9/22/15 - System is evaluating how to implement a POU project.

6/30/2015 - Compliance order issued 5/29/2015.

11/24/2015-Can system move forward with consolidation so when Hughson returns to compliance, all systems RTC at the same time? The LPA and SWS are not involve in this process and therefore cannot comment on moving forward with the consolidation. **11/2/2015-***Formal compliance plan has not been submitted to this department, but this water system is a candidate a large water system consolidation project (Hughson City). Compliance order will be revised

11/24/2015-Can system move forward with consolidation so when Keyes returns to compliance, all systems RTC at the same time? The LPA and SWS are not involve in this process and therefore cannot comment on moving forward with the consolidation. **11/2/2015-*** Formal compliance plan has not been submitted to this department, but this water system is a candidate a large water system consolidation project (Keyes Water System). Compliance order will be revised based on definitive guidance this project will happen. Awaiting response.

6/16/16 - On June 13, 2016 the water system went before the City of Ceres Council to request consolidation. The City of Ceres rejected this request for consolidation. A new Corrective Action Plan will be required of the water system.

4/22/16 - Office Hearing was conducted on April 19, 2016. A new compliance order is being generated and water system has been directed to provide documentation to support their claim that LAFCO has rejected their consolidation request. **2/26/2016:** Revised compliance order will be drafted following an Office Hearing that is scheduled for April 5, 2016. **2015:** Formal compliance plan has not been submitted to this department. Compliance order will be revised

11/24/2015-Can system move forward with consolidation so when Keyes returns to compliance, all systems RTC at the same time? The LPA and SWS are not involve in this process and therefore cannot comment on moving forward with the consolidation. **11/2/2015-*** Formal compliance plan has not been submitted to this department, but this water system is a candidate a large water system consolidation project (Keyes Water System). <p>11/24/2015-Can system move forward with consolidation so when Hughson returns to compliance, all systems RTC at the same time? The LPA and SWS are not involve in this process and therefore cannot comment on moving forward with the consolidation. 11/2/2015-*Formal compliance plan has not been submitted to this department, but this water system is a candidate a large water system consolidation project (Hughson City). Compliance order will be revised</p>
<p>*Construction application is complete and FA is in progress. Compliance order will be revised based on projected time frame for FA and construction. Awaiting response.</p>
<p>6/16/16 - Water system obtained legal council to move negotiations forward and anticipates closure of negotiations by the end of June. Begining in July the water system will initiate obtaining construction permits for the service connection. 4/22/16 - The water system projects having consolidation fees negotiated with City of Ceres within the 2nd Qtr of 2016. 2/26/2016: This water system is scheduled for an Office Hearing on March 1, 2016 due to failure to move forward with consolidation and will receive a revised compliance order. 11/2/2015-*Consolidation plans submitted on 8/24/15. Existing well will be converted into a landscape well and domestic supplies will be provided from the city of</p>
<p>6/16/16 - Water line and facilities construction has been completed and inspected. Bacteriological contamination was found in newly constructed lines which has resulted in a delay. System is currently hooked to city water, but remains on public notification until Ice Piggging of the existing distribution lines is completed and bact testing completed. 4/22/16 - Construction of supply line for purchased water is projected to be finished in the next couple of months. This department has issued a destruction permit for one of the exisitng sources. 11/2/2015-*Project has go out for bid awaiting construction schedule. Compliance order will be revised based on projected time frame for FA and</p>
<p>6/16/16 - The source is now showing elavated levels of nitrates and the water system has been required to initiate quarterly sampling. The Water system submitted correspondance on 6/8/16 indicating that they would be submitting documentation to obtain a well construction permit by the end of June 2016. A new corrective action plan is to follow per this correspondance. 4/22/16 - No new progress. 11/2/2015-*Requested guidance from Waterboards on RTC for</p>
<p>4/22/16 - The water system owner experienced a medical emergency and was unable to attend. The office hearing was rescheduled for May 17, 2016 as his Dr will release him for attendance at this time. 2/26/2016: The water system has not moved forward with consolidation. An Office Hearing will be conducted on April 12, 2016, with a revised compliance order to follow. 9/10/15 this water system received LAFCO Approval Letter for Out of Boundary Service</p>
<p>4/22/16 - This water system RAA is trending upward. Initial testing for 2Q - 2016 indicates the RAA will exceed the MCL in 2Q - 2016. A compliance order will follow once the official RAA is established.</p>
<p>4/22/16 - Water system has secured a civil engineer with water experience and is developing an application for installation of a treatment plant. 1/19/16 - Office Hearing conducted on 1/19/16 for this water system. A new compliance order is being issued to the water system. 11/24/2015-On November 10, 2015 this water system failed to provide the required course of action. Further legal action will be taken against the water system.11/2/2015- Installation of new source not likely to result in RTC, currently city of Turlock consolidation not feasible at this time.</p>
<p>4/18/2016-No status change from previous update. DFA Project Officer - Joel Greathouse</p>
<p>9/22/15 - Two projects, well and treatment and other consolidation. Technical and Financial clearance are ready to issue but don't have ERU clearance. The City needs to do more environmental work. Two projects under one funding agreement.</p>
<p>7/1/2015 - Project is having a consolidation component added. Two LPA regulated systems in Stanislaus County that have Arsenic MCL violations are going to be consolidated into the City of Hughson. The City has been very responsive to this addition. DFA is working on funding agreement for consolidation to combine with funding agreement for</p>

2Q/2016 - 20.75

<p>7/1/2015 - Projected project costs have increased. DFA is working to make this into a regional consolidation project to make additional grant funding available.</p> <p>Planning complete; into construction now. Project costs have increased and system may wait for Prop 1 availability. Final p/s expected soon. Consolidation 4 MHPs.</p>
<p>6/10/2016 NJG - P84 feasibility study was completed on 3/15/16. The County is redeveloping the arsenic treatment plant design for DDW review and approval. County intends to submit a DWSRF application.</p>
<p>See notes</p>
<p>Approved for Design 6/10/2016 NJG - Processing DWSRF construction application to consolidate with Los Molinos CSD. DDW approved P&S on 5/24/16. DFA received a copy of Cultural Resources Inventory Report; ERU will review the report and contact SHPO for acknowledgement.</p>

4/18/2016-No status change from previous update. 11/5/2015-per DFA Project Manager - Marques the construction FA may get issued early 2016.

9/22/15 - ERU is finishing up review. Need to finalize the scope of the project for the consolidation part of the project. Projected funding agreement will be issued in approximately 2 months. Construction scheduled to take 2 years. Still need to finalize the design of the consolidation elements. Meeting with the three systems on 9/28/2015 to get update on status and work on the water service agreements for the consolidations.

7/1/2015 - Project is having a consolidation component added. Four LPA regulated systems in Stanislaus County that have Arsenic MCL violations are going to be consolidated into the Keyes CSD. The District has been very responsive to this addition. DFA is working to fund this overall project as a regional consolidation to enable sufficient grant funding

11/7/2016 - Water system was issued a compliance order in September 2016, ordering the system to meet arsenic and manganese drinking water standards by 12/31/2018. DDW set up bi-weekly meetings with the county to discuss progress as well as obstacles that would prevent the system from meeting all requirements. **8/16/2016** - A review of the FFAST website shows that a construction grant application for arsenic treatment has not been submitted yet. CRWA will be assisting the WS with the application. It is still unknown as to whether Golden State Water Services will purchase the water system. **4/20/2016** - Project will potentially be slowed up a little bit as Golden State Water Services is looking to purchase the Robbins water system. Two funding applications are in the works right now to first install meters, then to construct the arsenic treatment plan (along with 100% design plans and specs). **1/22/2016**- planning study is complete, but final design will be completed under a construction grant. **9/22/2015** - Preparing an application for water meters as well as project. Met with County in July on meter project. Construction application will be submitted once planning

11/7/2016 - FFAST application documents are still in the process of being completed. **8/16/2016**: The Valley District recently approved the production well design for the water system. The engineer for the project is currently working on the FFAST application for construction funding. **6/9/2016** - A test well was recently successful in locating good water bearing strata. As soon as this SRF planning study is complete, a revised compliance order will be issued with a compliance deadline - which will be 3 years from date of issuance, maybe sooner if agreed to by upper management since this is just a well. 3 years is typical. Estimated time to formally complete the planning study is estimated to be 4Q16. **4/20/2016** - Water bearing zone has been selected from test well results, but selected zone will be redrilled (as of 4/21/2016) and samples retaken due to inconclusive secondary constituent results. **1/21/2016** - Drilling contractor

11/7/2016 - It appears all FFAST application materials have been submitted. Waiting on DFA review and FA approval.

8/16/2016 - For this quarter CRWA just received completed CEQA documentation from the City of Yuba City in an effort to help complete the FFAST application for construction funding. The water system is still on bottled water. **4/8/2016** - As the surviving entity, the City of Yuba City has requested assistance from California Rural Water Association to complete a funding application to fund construction for consolidation with Barry Elementary School. CRWA working on CEQA requirement. **1/8/2016** - As the surviving entity, the City of Yuba City has requested assistance from California Rural Water Association to complete a funding application to fund construction for consolidation with Barry Elementary School. The City of Yuba City is seeking to complete required CEQA documentation as this is needed in order to

12/14/2015-Stuck in CEQA process. Had hoped to be drilling new well January 2016.

12/14/2015-Stuck in CEQA process. Had hoped to be drilling new well January 2016.

0	Please provide a more current update and verify if the PWS will RTC by the end of the year.

P84 Constr - est. completion 12/2016 06/09/16 NJG - P84 Construction FA executed on 9/10/15. The water system focused on completing a separate project before starting on this one. The water system will be submitting a proposal to go out to bid with two separate phases starting this summer.

Currently under RAA

P84 planning closes 12/15.

11/7/2016 - DFA received service agreements and financial package from WS. Technical and financial has been signed off. The Environmental Review Unit (ERU) is sending a letter to US Fish & Wildlife (USFWS) requesting comments by 12/7/2016. Once positive confirmation is received from USFWS the DFA will draft the funding agreement. **8/16/2016** - Planning Project has been completed and FFAST application submittal for a new well construction grant is pending review and approval of Draft Water Service Agreements (By Gary Chan, LMCSO, and CSD attorney) and Financial Package (by Jim Lowden with LMCSO). **4/20/2016** - A required CEQA study (Initial Study/Mitigated Negative Declaration) has been completed by Coleman Engineering and Enercon Services, Inc. for this project. Coleman engineering has submitted a FFAST application for the construction phases (Phase 1 & 2) of this project. P&S for both phases have been approved by the District Office. **1/21/2016** - Plans and specifications have been approved for the

10/26/16 - Water system is moving forward selecting POU/POE. **8/1/16**: Water system has proposed POU/POE. System has hired a consultant to identify and select units/locations and to develop the POU/POE plan including operation. **4/27/16**: Working with water system on timeline to begin construction. Water system bringing in consultant/operator. **1/11/16**: CO issued Q1 2015. CAP identified POU as the preferred alternative. System is exploring POU vs. POE and

6/16. 1 well drilled. Construction under way for another new well, modifying existing 2 wells to seal off the lower aquifer with high arsenic, storage. 10/15-P84 Construction FA issued 9/15. System should be moving to the bidding soon.

6/16 - RAA is below MCL. Planning to return Richgrove back to compliance. Awaiting 2nd Q 2016 result. 4/28/16 System has 5 consecutive quarters of data on file. RAA is below MCL. 3/10/2016: Monitoring has been sporadic and will be expecting a sample result at the end of the month and the District will evaluate then. 10/15-Planning study completed. LOC issued for P84 construction funding. CSD behind on financial audits which prevent a water rate study

6/16 - Planning finished, Plans and specs approved. Finishing environmental and construction application. Finalizing rate study. Prop 218 hearing by end of summer 2016. 10/15-Plans and specs submitted and reviewed. Final plans and specs due 12/15. System will be moving to FFAST app for Construction

Status? 6/28/2016: LPA will be issuing the water system a new compliance order by 7/1/2016. Water system was RTC due to a misunderstanding that bottled water was an acceptable long term solution. Sanitary survey was conducted, a new compliance order will be issued by the end of May 2016. 8/8/2016: A new compliance order was issued in July 2016. Water system will submit a new Corrective Action Plan by 8/31/2016.

Status? 3/10/2016: Installed Culligan ion exchange centralized treatment. Effluent results were taken at the end of January 2016, LPA awaiting notification of the results. LPA will RTC when RAA is below and treatment is established to be working. 8/8/16: Source for water system has failed to supply adequate domestic water supply. A new well was drilled in July 2016. Initial water testing will determine if Arsenic removal treatment is still necessary. The department will hold a meeting with the operator and owner of water system to discuss domestic supply, new source testing and

Status? 5/5/2016: EPA had a conversation with the LPA to discuss a possible issuance of a NOV, but as time went on the water system submitted water quality data for the past year and has proposed to install treatment by 6/30/2016. EPA will follow-up with the LPA for a status update. 3/10/2015: System is not moving forward with directives that are in the last compliance order. We are asking EPA to go forward in doing enforcement. 12/7/2015-The system has not RTC, but is expected to provide a treatment proposal that will include coagulation and filtration. 11/2015-Temporary proposal approved for reverse osmosis POU treatment. 2/2016- Engineering report received with proposal to use activated alumina absorptive media. 4/18/2016-A letter of commitment was received in April, 2016 with implementation of the treatment plan by 7/1/2016. 8/8/2016: Water system requested a 60 day extension for implementation of the

2ND ENF ACTION NO. ISSUED (Use the FED REP ID # in SDWIS)

MEASURES	MCL DATA
POU/POE PROVIDED (Yes/No)	QUARTER/YYYY - RAA (ug/L) (Most Current)
	SRF & School Bond Law funding completed in 2009
	No SRF application
	No SRF application
	Offered Bond law, SRF, Prop 84, and ARRA funds.
	SRF preapplication
	No SRF application

FUNDING SOURCE (SRF/STATE/PRIVATE) or FUNDING STATUS (PRIOR TO 10/2016)
Arsenic is above MCL in the only active well.
Problem solved
Problem solved
Only well arsenic RAA = 26 µg/L.
Well 06 and Well 07 are in violation of the arsenic MCL, RAA of both wells in 0.014 mg/L
Only well arsenic RAA = 12 µg/L.
Preapplication submitted
SRF application submitted 2008
No SRF application
Applied for SRF for source capacity issues
Only well arsenic RAA = 21 µg/L.
One well arsenic RAA = 16 µg/L. System has 3 additional sources.
Prop 40 grant given, have SRF application to treat remaining untreated well.
Both wells exceed arsenic MCL. Standby well arsenic 140 µg/L. Well 2 arsenic 170 µg/L.

PLANNING STUDY-APPLICATION DATE SUBMITTED or PROPOSED SOLUTION (PRIOR TO 10/2016)
System is non-communicative. LPA has been focusing on bacteriological monitoring violations.
Wrote violation letter. Response by system was to take well out of service and place in standby status.
Coagulation/filtration
Central treatment installed and operating as of May 2008.
Adsorptive media (GFH)
System successfully piloted adsorption media treatment.
Drilling new wells and proposal to provide arsenic.
System is proposing to install treatment.
Treatment installed and being commissioned in place.
OX connected to Cal Water Service 6/09
School closed 6/30/09.
OX System connected to city of Lathrop water 7/09
No decisions presented to CDPH.
PN & qtrly monitoring.
OX System connected to city of Lathrop water 10/09
Consolidating with the City of Petaluma.
Attempting to block off arsenic-laden strata.
Not permitted at this time due to marginal results. Permit was issued 6/23/2009.
Sources off line. Hauling water.

[illegible]

PWS Inactive due to Consolidation
RAA < MCL - Treatment Installed
<p>11/19/2015-Legal had an issue with their agreement which required a new legal opinion from the City. The issue was cleared up last week. The planning agreement is now on Darrin's desk – his signature will execute the agreement.</p> <p>11/5/2015-Currently, buying water from the City of Colusa. Consolidated to the City of Colusa with the City in the process of getting a FA for this project. Will not use its sources again and will be incorporated into the City system.</p>
PWS Inactive - No longer a PWS

Water Company wants to install dual plumbed system-one for outside irrigation and one for domestic use with arsenic treatment
Consolidation with Erskine Creek Water Company
Blending treatment - introduction of a surface water source to further blend down the arsenic concentration in the water delivered to the customers.
Quarterly monitoring, public notice
Consolidate to City of Yuba City

	11/1/2014
	11/10/2014
Only seasonally use the well with Arsenic MCL exceedance. They blend during this time.	12/5/2014
Construction project phased to first drill new well, then will install treatment of well does not meet As MCL.	12/11/2014
	12/19/2014
Treatment plant is installed and operational. RTC will be issued once RAA is below 0.010 mg/L. Water system has been returned to compliance based on an RAA below the MCL.	1/1/2015
THIS PACKING PLANT HAS SEEN DECLINING EMPLOYEE #S FOR THE PAST SEVERAL YEARS & HAS CONTACTED YCEH TO INACTIVATE THEIR SYSTEM. IN THE MEAN TIME, THEY ARE STILL MOVING FORWARD WITH RESEARCHING TREATMENT FOR BOTH ARSENIC & RADIOS.	2/1/2015
2/13/15 (JSD): RTC - using 100% AVEK water since 01/01/12. 5/29/15 (JSD): RTC as of 2/2/2015. 2/13/15 (JSD): RTC - using 100% AVEK water since 01/01/12	2/2/2015
5/29/15 (JSD): RTC as of 2/2/2015. 2/13/15 (JSD): RTC-Kernvale MWC's well is dry; emergency tie-in with Erskine Creek since 10/17/2013.	2/2/2015
No violation since 1st qtr. 2014. Updated 2/17/2015 - KDC	2/6/2015
	2/15/2015
Included in City of Yuba City Regional Prop 84 project. Awarded Prop 84 construction grant on 8/28/2013. Project in progress, expected to complete by 8/29/2016. <i>System now inactivated, consolidated to Yuba City</i>	2/18/2015

PWS Inactive - No longer a PWS
RAA < MCL - Treatment Installed
RAA < MCL - Blending
New Well 6 meets Arsenic MCL. Wells 4 & 5 approved for STANDBY status.
CONSOLIDATION WITH CITY OF HFD
RAA at or below 8ug/L and treatment plant was installed.
LPA has a declaration from the water system that there are <25 employees working at the facility at least 6 months out of a year.
Using 100% AVEK water.
Using 100% water from Erskine Creek Water Company; Well 01 is dry.
blending water from wells with low arsenic concentrations to ensure water delivered to the customers complies with the arsenic MCL.
PWS Inactive due to Consolidation

5/29/15 (JSD): P84 construction funding project complete as of 3/09/15. 2/13/15 (JSD): P84 construction funding project is almost 100% complete

System not eligible.

7/2/2015 - 7/1/2015 compliance date will not be met. Compliance should be achieved by 10/1/2015. Have Prop 84 construction grant. Construction has begun. Notice to proceed was issued on 7/7/14. Construction completion deadline is 7/7/15.

SRF construction - COMPLETE

Operator submitted Univ Preap during Sept 2009.

N/A

2/2/15 (JSD): Phase 1 of P84 project included drilling a new well (Well 09) and Phase 2 of the project included construction of arsenic adsorption treatment plant and a new 750,000-gallon tank for blending of treated water and a portion of bypassed water from Well 09

Treatment plant was placed into operation in May 2015.

Arsenic removal treatment installed

Received Prop 84 construction funding. Will construct new water intake away from source of arsenic.

Construct an arsenic treatment plant.

POU installation using P84 Part 1 grant funding

Going from groundwater well to a surface water system

10/05/15 (JSD): Returned to compliance as of 6/30/15. 5/29/15 (JSD): P84 construction project is complete as of 3/06/15; arsenic removal treatment and blending treatment being provided. RTC expected in 2nd qtr. of 2015. 2/13/15 (JSD): P84 project is expected to be completed by end of February 2015.	6/30/2015
Pilot study began in May 2015. System should be found in compliance by 7/1/2015.	7/17/2015
7/29/15 update: Approval to operate arsenic treatment given 3/4/15. Current 4QRAA is 6.3 ug/L. Will RTC system eff 8/1/15.	8/1/2015
9/22/15 - Treatment plant went on line 8/25/2015. Going to take a raw water sample to show compliance with the Arsenic standard. Moved intake downstream where arsenic level is below standard. Project also involved replacing the surface water treatment plant at a new location. Once sufficient monitoring has taken place the system will be returned to compliance. 7/2/2015 - Treatment plant construction well underway. Currently project completion is projected to be the end of September 2015 and the system producing water with arsenic levels below the MCL.	8/25/2015
9/21/2015: RTC - Sept 2015; As trt installed. CO issued Q1 2015	9/1/2015
POU units have been installed on 26 connections. RTC after 4 QRAA < MCL. 7/29/15 update: 4QRAA with POU in place for one quarter is 23.5 ug/L. Anticipate RTC by end of 3rd Q 2015.	9/9/2015
Currently in the process of reviewing the surface water system documentation and plans	9/18/2015

Results of Pilot Study
4QRAA < MCL after treatment installed
Switched to new source intake location on 8/25/15. Sample collected on 9/12/15 from new location was "non-detect" for arsenic. Another sample collected in October 2015 from new location was 2 ppb.
RAA < MCL - Treatment Installed
RAA < MCL - Treatment Installed (POU)
Converted over to a surface water treatment plant. Inspection was performed by the LPA to confirm construction was performed according to approved plans. A new State permit will be issued.

10/05/15 (JSD): Supplier's Certificate of Project Completion dated 9/29/15 has been received. 100% inspection of the project by DDW and DFA staff was conducted on 09/29/15. Project completion certificate of DDW is under preparation.

5/29/15 (JSD): Construction project is over 90% complete with estimated completion date of June 30, 2015.

2/13/15 (JSD): P84 construction funding project in progress; 75% completed.

Was in SRF, requested bypass

We executed their planning FA (\$40K) in 2011 and the FA expired 5/1/13. No work was done and no claims ever submitted.

Prop 84 Planning and Feasibility turned down because they did not want to consolidate. Plan to apply to SRF

Funding project nearing completion. Arsenic treatment plant has been online since September 2014. Treated water meets the arsenic standard.

Self-funded through community block grant.

Drill a new well and arsenic removal treatment using adsorption

Recently drilled new well, water quality testing meets standards, undergoing testing to determine if water meets quantity standards. Q. PON As. Q. As testing

Arsenic and Manganese treatment facilities.

Evaluating consolidation, new source, treatment.

PN required, existing treatment plant was re-engineered and construction was completed in September 2014.

10/05/15 (JSD): The new arsenic removal treatment plant is operating and the water system has been returned to compliance as of 09/30/2015. 5/29/15 (JSD): Construction of the arsenic removal treatment plant and Well 03 is almost complete. Commissioning of the treatment plant is in progress. 100% completion of the project is expected before June 30, 2015. 2/13/15 (JSD): A new well drilled to replace failed Well No. 1 and adsorption arsenic treatment being installed. Project completion deadline of May 21, 2016 according to the P84 funding agreement.	9/30/2015
	10/10/2015
Treatment plant completed along with initial testing phase.	10/28/2015
8/02/2016 Permit Amendment was received to inactivate East Well from the water system. 4/28/2016 No status change from previous update. Public Notification Provided. West Well; currently has a 4 quarters RAA under the MCL, therefore has returned to compliance. However, east well still over MCL. East well is only standby, however. Still connected to system though.	11/5/2015
8/3/2015 (JD): PWS had their treatment on-line starting in September 2014. So the plant effluent is <10ppb but the RAA was > MCL as of the 1st quarter 2015. It is anticipated that after the 3rd qtr 2015 the RAA is < MCL.	11/6/2015
Water System put new source online. Well #1 is now being used as a backup well and is not interconnected. Treated water sample for 11/16/15 was 5.3 ppb	11/16/2015

<p>RAA < MCL - Treatment Installed-Arsenic removal treatment (using adsorption technology) has been installed. The treatment plant is adequate to achieve compliance with the arsenic MCL.</p>

Treatment

Continue quarterly sampling to monitor arsenic levels and report in CCR.

Treatment

<p>Proposed piloting treatment but vendor nonresponsive. 7/29/15 update: 4QRAA = 7 ug/L. Will RTC if they maintain QRAA<MCL for four full quarters. System continuing to look at piloting treatment. 9/17/15 update: 4QRAA = 3.7 ug/L. Will RTC if this trend continues. 12/8/15 4QRAA <MCL for 5 consecutive quarters based on reduced source water quality arsenic concentrations. RTC effective 12/8/15.</p>	<p>12/8/2015</p>
<p>System is currently still at 10 ug/L running annul average. They will continue to collect quarterly samples and provide sample data in their CCR's. All previous arsenic violations dating from 2007 to 2010 have been returned to compliance in SDWIS. There have been no arsenic MCL violations since 2010.</p>	<p>12/28/2015</p>
<p>9/23/15 - Action Plan was resubmitted. Submitting qtrly reports. ATEC has been hired to design a treatment plant. Plan is still to RTC the end of summer 2016. Should note that arsenic levels seem to be trending down, last two results were 10 and 7.1 ug/L. Based on RAA, system may no longer exceed MCL depending on 4th qtr. result. 7/2/2015 - Action Plan was submitted, District requested revisions by July 10, 2015. Based on the most recent progress report, the system is working with a vendor to scope and assemble the treatment plant, with the goal to RTC by end of summer 2016.</p> <p>4/15/15 - Conversation with Jan Sweigert - CO 05-14R-002 issued on 05/30/14 and amended 10/03/14. CO imposed a RTC deadline of 7/31/2016 and required a revised corrective action plan be submitted by 11/10/14.</p>	<p>12/31/2015</p>

Arsenic concentrations in source water reduced over last 5 quarters.

RAA < MCL - Natural Causes-No arsenic MCL exceedance since 2010. Previous violations have been returned to compliance but system is still collecting quarterly samples and including this data in their CCR.

1/12/2016:RAA < MCL - Natural Causes - Stabilized and consistently dropped in last 5 quarters: 16, 16, 10, 7.1 and 6.3 as the result for 4th qtr. 2015. System will remain on quarterly monitoring to ensure arsenic levels do not start to increase with change in recharge conditions due to this year's wet weather.

Installing arsenic treatment plant- Adsorptive media

Consolidation with the City of Santa Rosa

Consolidation with the City of Santa Rosa

<p>2/8/16- (TW): System has awarded contract for \$3.6 Mill. construction of arsenic treatment plant and storage tank. They did not use well from approximately 6/13 to 12/15. Used the well in early 2013 to pilot different media. Current RAA = 8.1 ppb. However, well only turned on to collect sample so - low sample results may be due to the well not being used and not representative of the arsenic level typically produced by the well when in use.. Construction bid awarded for \$3.3 Million with construction 12-18 months. System instructed to take 1st quarter 2016 arsenic sample-if below the MCL, the system may be returned to compliance. current CO dated 5/8/12 - directs them to minimized the use of the Garzoli well in the system. 11/15/2015- (TW): System going out to bid. Estimated construction 12-18 months. This system was not selected for a revised CO due to the timeframe of RTC. It does not fluctuate much as the range is typically 11-14 ppb. They have not been using the well (2013 and 14) as they did not need it however, they recently did need to start using again due to the capacity in the system. They were using the well in early 2013 for piloting of different media. They have recent results below the MCL, however, the well was not being used in the system and only turned on to collect sample. We believe the samples below the MCL are due to the well not being used and not representative of the arsenic level typically produced by the well when in use.. 8/4/2015 (TW): Construction application has been received and waiting for the Construction FA to go out to bid. Estimated FA issued Fall 2015 with Construction 12-18 months. This system was not selected for a revised CO due to the timeframe of RTC. It does not fluctuate much as the range is typically 11-14 ppb. They have not been using the well (2013 and 14) as they did not need it however, they recently did need to start using again due to the capacity in the system. They were using the well in early 2013 for piloting of different media. They have recent results below the MCL, however, the well was not being used in the system and only turned on to collect sample. We believe the samples below the MCL are due to the well not being used and not representative of the arsenic level typically produced by the well when in use.</p>	<p>3/7/2016</p>
<p>1/11/2016 - Project on schedule to complete by 3/1/2016. 6/30/2015 - City of Santa Rosa preparing to go to bid. Construction projected to be completed by 3/1/2016. Consolidation should occur within 12 months. Funding agreement executed.</p>	<p>8/26/2016</p>
<p>1/11/2016 - Project on schedule to complete by 3/1/2016 and will notify Headquarters as soon as the project is completed. 6/30/2015 - City of Santa Rosa preparing to go to bid. Construction projected to be completed by 3/1/2016. Consolidation should occur within 12 months. Funding agreement executed.</p>	<p>8/27/2016</p>

Source(s) Reclassification - Garzoli Well was inactivated. The City has a FA for the construction of an arsenic treatment plant – construction is starting. The well be offline until the project is complete. The RAA has dropped below the MCL – last sample from 11/15 was 6.4 ug/L.

	Have not been sampling for arsenic, since they are currently on purchased water.

Under RAA

ON ASSISTANCE REFERRAL LIST I THINK

NOV ISSUED W/ CC TO CDPH & EPA
New owners. Revisiting permanent source of blend or consolidation.

3/7/16 RAA below MCL. Returned system to compliance in SDWIS. 11/15/2015-system is proposing to do blending. System only needs some infrastructure for blending - flowmeters and valving for regulating the blending. Submitted a permit amendment for blending. 10/15-2nd quarter arsenic not collected. System collected 3rd quarter but results not available.	3/7/2016
	3/9/2016
Water system is going to continue on quarterly testing.	3/9/2016
3/3/2016- DEs is positive Bella Vista has connected to Paso Robles Beach MWC. The water system needs to sign the declaration form saying they are no longer a water system and state the reason as they've connected to a permitted public water system, which should be named specifically. A letter was also sent a letter to the Paso Beach operator asking for documentation. Once we receive those documents, we will add it to the RTC list. 12/2015-Bella Vista is no longer blending, they are 100% purchasing water from Paso Beach. LPA has not seen the final contract so until they do, they don't want to inactivate the system. Kurt Souza says they are RTC because the water deal is going to happen. 6/2015-Hook up in progress to local CSA - Kurt S. advised to take of list. Until then they are blending.	3/21/2016

RAA < MCL - Natural Causes

RAA < MCL - Natural Causes-The water table lowered and they had to lower their pump. They also cleaned out a lot of sediment from the bottom of the well.

RAA < MCL - Natural Causes-The RAA is currently under the MCL and the system will be monitored for two year with quarterly sampling to ensure that system will not fall out of compliance in the future. All current sampling results are around 2ug/L.

Connection to Paso Beach water co., wells disconnected from domestic system.

BOTTLED WATER PROVIDED and Pending Consolidation with City of Hanford.

--	--

--	--

--	--

4/27/16: Received correspondence from the City of Hanford and the operator. The permit was processed and the connection is set to be final on 5/11/16. I have reported the information to Tricia Wathen. 3/10/2016: Anticipated to have the consolidation completed by 3/31/2016. They are currently in the process of laying the pipe and making the connection to the City of Hanford. The County sent the District the PO from corporate on the installation of water mains to connect to the City of Hanford. Cost is approximately \$95,000 and was dated 2/23/16. once construction is completed, the water system will be inactivated and RTC. 12/1/2015-Pending Consolidation with City of Hanford. Last update was obtained in October 2015. The system currently is supplied city water for their production but their domestic line remains to be connected. A revised CO will be issued if they do not consolidate by January 2016.

Funding approved for planning. Evaluation to blend sources to reduce arsenic level to below MCL. Two of the thee wells are below the MCL. Funding application approved.

[illegible]

2/18/2016. Filtering system was installed. First sampling results submitted on 3/16/2016. Results were non detect. A three month sampling to be conducted to evaluate proper function of sytem. 2/18/2016: Plans for filtering system were approved. Installation will take place 2/29/2016. 1/15/2016: Plans for a filtering treatment submitted. Original compliance plan submitted to LPA September 30th, 2010. Compliance plan was changed in 2014 to blending plan. Proposed solution was a blending plan which was approved by District Engineer and LPA 7/17/2015. Some efforts were made to implement plan, but was not implemented. On 10/23/2015 representative informed DEH that they will be looking into a filtering system. Plans will be submitted within the next week. 7/26/2016 Filtering system was installed. The system appears to be working. Last two quarters have been ND. The RAA is below the MCL. Returned to compliance on 7/27/16.

Inactivate Well #3. Wells #1 and #2 are below the Arsenic MCL.

Tier 2 notifications

camp currently closed as a result of operational problems; all users moved to Acton Rehabilitation Center

[illegible]

4/18/2016. Filtering treatment system has been installed, Two consecutive sampling sets a week a part were reported non- detect. sampling for 4 initial weeks and then monthly. DE required the running annual average of treatment to meet requirements before the system is returned to compliance. 1/15/2016: after evaluating levels of uranium and arsenic, operators decided to install a filtering system instead. The filtering system gave them more confidence to reach compliance. 2015: Tier 2 arsenic notifications issued quarterly. Well is sampled for arsenic quarterly. State engineer and LPA visited site in January 2015 to evaluate blending plan. Blending plan was approved, but system decided not to implement. System will be submitting plans for a filtering system with in one week. 7/26/2016 Filtering system was installed. The system appears to be working last two quarters have been ND. DE requested 4 to be below 10 before RTC. 7/26/2016 Filtering system was installed. The system appears to be working. Last two quarters have been ND. The RAA is below the MCL. Returned to compliance on 7/27/16.	7/27/2016
6/24/2016: Inactivation was delayed to coincide with summer break. 4/29/16-Well 3 to be inactivated in June 2016. 1/29/16-Well 3 to be inactivated in February 2016	7/28/2016
5/9/2016-Arsenic Water Treatment Unit expected to be delivered within the next week. Will be operational within a few days. 12/1/2015-Arsenic Water Treatment Unit expected to be delivered within the next week. Will be operational within a few days.	12/1/2016

City has submitted an application for funding thru SDWSRF.

Not applicable

Funding agreement executed.

The system has submitted a corrective action plan. They are exploring treatment options.

Each service connection has a POU RO device which reduces the arsenic level to below 10 ug/L

6/29/2016: The treatment plant is installed and operational. As indicated, their treated water results are 5.1 ug/L. This system will be returned to compliance.Updated 9/29/2015 - KDC: Arsenic treatment plant being installed and should be operational by December 31, 2015. Per a law suit that was settled out of court, the City must be providing arsenic compliant water by 6/30/2016.	10/14/2016
Inherited from Merced County (LPA). The system has reliably produced water that complies with the arsenic MCL with the use of POU devices.	UNK - No action listed in SDWIS
<p>10/26/2016: Water system is inactive - connected to City of Santa Rosa water.</p> <p>7/25/16: Water system is fully connected to City of SR. Engineer will be doing a 100% inspection soon.</p> <p>Consolidation should occur within 12 months. Funding agreement executed.</p> <p>4/20/2016 - Starting construction. 2/26/2016-The system will not be RTC because the well is still contaminated and treatment is unreliable. The system can RTC when connected to Santa Rosa water. An updated construction completion estimate is 4/30/2016. 1/11/2016 - Project on schedule to complete by 3/1/2016.</p> <p>6/30/2015 - City of Santa Rosa preparing to go to bid. Construction projected to be completed by 3/1/2016.</p>	8/26/2016

EPA Comments/Questions
Pilot study is completed? When does this systems expect to RTC? Candidate for compliance order if anticipated RTC date is past Dec 2016.
Due to lack of a formal order, high arsenic level and the fact that not all homes have POU's, system appears to be a candidate for compliance order.
What date was the compliance order issued?
Order was issued 6/18/15 but Column K states that the order does not meet EPA criteria? If this actually is the case, a revised order meeting EPA criteria is needed.
Need clarification on when all Sacramento orders will be issued or whether they have been issued already.
Applied for funding to complete what type of project? How has the consolidation project played a role?
All San Bernardino systems have orders with short RTC turnaround. How recent are all of the RAAs? What are the proposed solutions for the PWSs? All possible candidates for new compliance orders if not expected to RTC by end of 2016

San Bernardino LPA-66	CA3601015	3601015	Ironwood Camp
San Diego LPA-67	CA3701010	3701010	Warner Unified School District

RTC date needs to be updated. Especially since project was expected to be complete by Nov 2015. If project is not expected to be completed by date stated, then may need amended order.
RTC date needs to be updated. Especially since project was expected to be complete by Nov 2015. If project is not expected to be completed by date stated, then may need amended order.
Candidate for revised order and RTC date.
ENF: Candidate for new compliance order only if plant is not functional. Also, please include milestones such as when planning study complete, etc. DATA: If data from treatment plant ends up being below MCL, does system still plan to seek funding?
Given anticipated RTC date, a compliance order should be issued.
Need anticipated RTC date. If still extends into 2017, a compliance order should be issued.
Should this system be moved to the RTC list in respect to arsenic noncompliance?
Please provide more information on consolidation. Candidate for revised order.
Provide latest RAA and anticipated RTC. Depending on anticipated RTC date, EPA may want to see a compliance order issued.
Due to the long period of time before returning to compliance, this system remains a candidate for a compliance order. A compliance order will not be issued due to the political nature of this water systems.
